## Pottawattamie County Emergency Management Launches New Website

**COUNCIL BLUFFS (IA)** – Pottawattamie County Emergency Management is proud to announce the launch of a completely new agency website at [pcema-ia.org](http://pcema-ia.org). This site will allow us to better communicate with residents of Pottawattamie County and its municipalities and serve as the front door to people not yet familiar with the emergency management agency and its programs.

We've created a site with a new look and feel, but we hope to add much more to the online experience as we move forward. The primary goal of this initiative was to provide quicker and more efficient access to information when it's needed the most. By releasing this new website and using additional integrated tools we can now provide agency information, news, preparedness tools and resources, and information regarding active emergency and disaster response and recovery activities in a direct manner that's easier for residents to find.
