Disposable or Cloth Face Masks

- Disposable masks are past their use by date, so not authorized for use in a medical setting, but will still serve the purpose of reducing spread of airborne viruses
- Cloth masks - We offer a variety, with or without removable activated charcoal filters

N95 and KN95 Respirators

- N95 and KN95 Respirators are more effective than disposable masks or cloth masks, and have a longer shelf-life than disposable masks

Honeywell

DC300N95 Disposable Respirator

3M™ Particulate Respirator 9501+

3M Science. Applied to Life.™

A High Level of Comfort and Convenience

3M™ Aura™ Particulate Respirator 9205+, N95

The 9205+ respirator combines comfort and convenience with its contoured nose panel and chin tab for ease of positioning, donning and adjustment. In addition, the Aura™ respirator design features an embossed top panel that helps reduce the potential fogging of eyewear from warm, moist exhaled airflow. This particulate respirator provides all these benefits in an individually wrapped package for your convenience and protection from contamination before use.
