as water

Glass doors are available
in clear tempered glass only

Note
Glass orders may delay a job
2 to 4 extra weeks

WINE RACKS

ONLY AVAILABLE IN 1 PIECE | DIVINE COLLECTION

Amount of diamonds or circles depends on the size of the door. We optimize the space to fit as many openings as possible.

For circles, every additional 6 inches adds one row/column of circles. Maximum 10 circles.

LIMITED WARRANTY

1. Manufacturer's Warranty

Création Dimension inc. guarantees the quality of all its polyester products (the Products) against premature yellowing as well as apparent or hidden defects that make them unsuitable for their intended use or which result in premature deterioration for a period of 5 years.

2. Warranty Period

Exquisite collection

The present warranty is valid for a period of 5 years from the date of shipment of the Products. Repair and replacement of the Products by Création Dimension do not have the effect of extending this warranty nor of instituting a new warranty period.

Divine collection

The present warranty is valid for a period of 10 years from the date of shipment of the Products. Repair and replacement of the Products by Création Dimension do not have the effect of extending this warranty nor of instituting a new warranty period.

3. Restrictions

This warranty does not apply to :

- a) outdoor installations;
- b) products that have been abused, misused, poorly maintained, installed improperly, burned, stained, soiled, misshapen or otherwise damaged through negligence, accident or voluntarily;
- c) products that have been handled, modified, repaired or otherwise altered in any manner, by any person other than Création Dimension or a Création Dimension representative;
- d) the deterioration of a component or external aging (surface) of the Products as a result of age or ordinary wear and tear;
- e) the cost of installing and transporting the Products related to the application of the present warranty;
- f) warping of doors over 32" high (maximum interior tolerance of 1/8" and exterior tolerance of 1/16"). Our warranty does not cover labor fees.

4. Services

To benefit from the services of this warranty, simply return the Products with proof of purchase before the expiration date to the Seller from whom they were purchased. Création Dimension will then choose, at its discretion, to replace, repair or credit any Products at a fee established on the basis of 1/5 of the suggested purchase price multiplied by the number of years elapsed since the original date of shipment for exquisite collection and 1/10 for divine collection. If the identical materials or products are not available when the request for warranty services is made, Création Dimension reserves the right to substitute them with materials and models of comparable quality, without being obliged to replace all of the Products if only one or some of them are defective.

Restrictions & Maintenance

Restrictions

Avoid exposing polyester products to sources of extreme heat. Precautions must be taken when using certain electric countertop appliances. Toasters, kettles, portable ovens, and all other appliances creating heat or steam can affect nearby surfaces. Be sure to place these appliances so as to avoid affecting surfaces situated above the appliances.

Maintenance and Precautions:

Polyester products can be easily cleaned using mild soap and water. As with any quality product, certain precautions should be taken in order to preserve their appearance. Never use chemical products such as thinners, bleaches, or any cleaning product containing solvents or abrasives. It is especially important to avoid products containing acetone. Make sure to avoid scratching or striking polyester products with a sharp object since marks or permanent cuts could result.
