ICON HEALTH SOLUTIONS

Supportive Living Services | Behavioral Support | Forensic Support

ICON Health Solutions is a person-centered Supportive Living Services (SLS) organization serving adults with intellectual and developmental disabilities. We are committed to empowering individuals to lead safe, fulfilling, and independent lives. Whether they require assistance with activities of daily living, leading a healthy lifestyle, behavioral management, navigating complex forensic situations or active court cases, parenting, and more. Through innovative, empowering and culturally responsive support strategies, we enable our clients to advocate for themselves in whatever area they need support.

Nearly half of clients apply to post-secondary education

Achieve 1+ year of sobriety

One-third of clients attained employment

INDIVIDUALIZED SUPPORT

Clients partner with board-certified behavioral analysts to develop self-management plans focusing on their unique needs, choices, and goals. These plans prioritize clients' rights and choices and emphasize natural consequences.

BEHAVIORAL & SAFETY SUPPORT

Individualized behavioral strategies focus on self-management, de-escalation, safety, and positive outcomes.

COMMUNITY INTEGRATION

Clients are encouraged to pursue employment, education, relationships, recreation, and personal interests.

DIGNITY & CHOICE

Clients always have a choice in how they work with our agency and staff to receive supportive living services.

CULTURALLY RESPONSIVE

We prioritize clients' history, experiences, triggers, past trauma, and backgrounds in the services we provide.

THE ICON WAY

ICON recognizes that successful supportive living often requires addressing needs beyond an immediate service plan. Our team works to connect clients with essential resources. We build trust and rapport, support housing and food stability, and identify clothing resources. Most importantly, we are culturally responsive and tailor services in a manner that empowers clients to engage healthily in the community where they feel most seen. At our core, we lead with love.

We believe supportive living is about more than keeping someone safe—it is about helping them build a life they value.

OUR STORY & FUTURE

Founded in 2020, ICON has grown rapidly due to success with complex client referrals. ICON supports the majority of Los Angeles County; having provided services to 5 of 7 regional centers in the County. Our founders have become advocates in the SLS community and joined the California Community Living Network (CCLN) in 2023. Now, ICON is expanding into Harris County, Texas, to extend its reach and impact.

Today, ICON's vision is to reach more individuals, strengthen supportive living services, and share successful practices with organizations across the country.
