

SHIMP FOR PRESIDENT 2028

DRAFT EXECUTIVE ORDER

FEDERAL LAW-ENFORCEMENT CONSOLIDATION, ACCOUNTABILITY, AND TAXPAYER SAVINGS

Presidential Day-One Policy Draft

Fogel G. Shimp — Independent Candidate for President — 2028

ACCOUNTABILITY | INTEGRITY | RULE OF LAW

Financial headline: On the verified budget lines presently quantified, the proposal identifies **\$16,459,535,000 in gross annual agency funding** for ICE, DEA, and ATF. This is **not yet a net-savings figure**: functions transferred to the FBI or other retained agencies would require funding, and additional DHS/IRS-CI/FPS savings must be separately scored before being added.

Important baseline note: The ICE figure below is the FY2026 President's Budget request; DEA and ATF figures are FY2026 enacted figures. Because those are not the same budget basis, the \$16.460 billion total is a transparent planning subtotal, not an official CBO-style score.

FINANCIAL REPORT

Component	Policy	Budget figure used	Treatment
ICE	Abolish	\$11,290,535,000	Gross funding identified; HSI is already included in ICE and is not double-counted.
DEA	Abolish / transfer core criminal work to FBI	\$3,584,000,000	FY2026 enacted total funding by source.
ATF	Abolish / transfer appropriate criminal work to FBI	\$1,585,000,000	FY2026 enacted Salaries & Expenses.
IRS Criminal Investigation	Abolish / transfer criminal tax investigations	Not separately scored	IRS-CI is funded inside broader IRS appropriations; no unsupported standalone figure is added.
Federal Protective Service	Abolish / reassign protection mission	Not separately scored	No unsupported standalone FY2026 figure is added.
DHS departmental structure	Abolish department; retain/reassign selected components	Not separately scored	Only truly eliminated headquarters/overhead can count as savings; transferred components do not.
FBI	Expand as needed	Cost TBD	Additional agents, analysts, labs, systems, training and support must be subtracted from gross savings.
U.S. Marshals Service	Expand federal-building role	Cost TBD	Additional staffing/equipment must be subtracted from gross savings.

Verified planning subtotal: \$11,290,535,000 + \$3,584,000,000 + \$1,585,000,000 = **\$16,459,535,000 per year in gross funding identified.**

Net savings formula: gross eliminated appropriations + verified DHS overhead/IRS-CI/FPS reductions – FBI expansion – U.S. Marshals expansion – costs of any functions transferred to retained agencies. Until those transfer costs are appropriated and scored, no responsible document should tell the public that the entire \$16.460 billion is guaranteed net savings.

EXECUTIVE ORDER

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Purpose.

The Federal Government shall reduce duplicative law-enforcement bureaucracy, consolidate appropriate investigative functions, preserve essential public-safety capabilities, and identify measurable taxpayer savings while maintaining the enforcement of Federal law.

Sec. 2. Legislative Reorganization Plan.

Within 30 days, the Attorney General, the Director of the Office of Management and Budget (OMB), and the Secretary of Homeland Security shall transmit to the President a legislative package necessary to abolish agencies or statutory offices that cannot lawfully be terminated or transferred by executive action alone. Nothing in this order purports to repeal an Act of Congress by executive order.

Sec. 3. Immigration and Customs Enforcement.

Consistent with existing law and subject to legislation where required, the Administration shall prepare for termination of U.S. Immigration and Customs Enforcement as a standalone agency. Necessary criminal investigative functions, including appropriate functions presently performed by Homeland Security Investigations, shall be evaluated for transfer to the Federal Bureau of Investigation or another legally appropriate recipient. Statutory immigration functions that remain legally required shall continue until Congress alters them.

Sec. 4. Drug Enforcement Administration.

The Attorney General shall prepare a consolidation plan for transferring appropriate Federal narcotics and organized-crime investigative capabilities from the Drug Enforcement Administration to the FBI and other legally appropriate components, subject to statutory requirements and congressional action where necessary.

Sec. 5. Bureau of Alcohol, Tobacco, Firearms and Explosives.

The Attorney General shall prepare a consolidation plan for transferring appropriate criminal investigative, explosives, firearms-trafficking, laboratory, intelligence, and related functions of ATF to the FBI or other legally appropriate components. Statutory regulatory functions shall not be terminated except as authorized by law.

Sec. 6. IRS Criminal Investigation.

The Secretary of the Treasury and Attorney General shall develop a plan to transfer appropriate criminal tax, money-laundering, sanctions-evasion, and financial-crime investigative capabilities presently performed by IRS Criminal Investigation to the FBI or another legally appropriate component, while preserving lawful tax administration and evidentiary expertise.

Sec. 7. Department of Homeland Security.

OMB shall prepare a reorganization proposal to terminate the Department of Homeland Security as a Cabinet department while preserving and relocating components the Administration proposes to retain, including U.S. Customs and Border Protection, the Transportation Security Administration, the United States Coast Guard, and the United States Secret Service, subject to congressional enactment where required.

Sec. 8. Federal Protective Service and Federal Facilities.

OMB, the Attorney General, and the Administrator of General Services shall develop a plan to discontinue the Federal Protective Service as a standalone component and reassign necessary Federal-facility protection responsibilities. The plan shall evaluate expanded roles for the U.S. Marshals Service and other appropriate agencies while maintaining uninterrupted security at Federal facilities.

Sec. 9. FBI Workforce Expansion.

The Director of the FBI shall identify the personnel, facilities, laboratories, information systems, training, and field-office capacity necessary to accept transferred missions. Where additional personnel are necessary, the Director shall submit a targeted hiring and budget request through the Attorney General and OMB. Consolidation shall prioritize the transfer of qualified incumbent personnel when lawful and cost-effective rather than duplicative new hiring.

Sec. 10. U.S. Marshals Service.

The Attorney General shall assess additional staffing and resources required for any expanded Federal-building protection mission assigned to the U.S. Marshals Service and shall submit a corresponding budget proposal.

Sec. 11. Taxpayer Savings Report.

Within 90 days, OMB shall publish a public financial report identifying, by appropriation and program activity: (a) spending eliminated; (b) spending transferred; (c) one-time transition costs; (d) additional FBI and U.S. Marshals costs; (e) property, contract, IT, and administrative savings; and (f) projected net savings for each of the next 10 fiscal years. Transferred spending shall not be represented as taxpayer savings.

Sec. 12. Continuity of Law Enforcement.

No investigation, prosecution, warrant, evidence file, intelligence record, laboratory function, regulatory duty, detention obligation, court-security responsibility, or other legally required mission shall lapse solely because of this reorganization. The Attorney General shall establish continuity protocols for pending matters.

Sec. 13. General Provisions.

(a) This order shall be implemented consistent with applicable law and subject to the availability of appropriations. (b) Nothing in this order shall impair authority granted by law to an executive department or agency, or the functions of OMB relating to budgetary, administrative, or legislative proposals. (c) This order creates no right or benefit enforceable at law by any party against the United States.

BUDGET SOURCES AND ACCOUNTING NOTES

- ICE: DHS FY2026 Congressional Budget Justification lists total FY2026 President's Budget authority of \$11,290,535,000. It also identifies ICE as DHS's principal criminal investigative agency and notes that ICE enforces more than 400 federal statutes.
- DEA: DOJ FY2027 budget narrative reports FY2026 enacted total funding of \$3.584 billion: \$2.580B Salaries & Expenses, \$34M reimbursable, \$339M sub-allotment, and \$631M Diversion Control Fee Account.
- ATF: DOJ FY2027 exhibits report FY2026 enacted Salaries & Expenses of \$1.585 billion. This corrects the earlier \$1.625 billion figure, which was the FY2025 enacted amount shown in the same table.
- IRS-CI: IRS materials describe Criminal Investigation as a specialized IRS law-enforcement function, but the public FY2026 material reviewed does not supply a clean standalone appropriation suitable for adding to this subtotal. It is therefore intentionally left unscored rather than estimated.
- DHS/FPS: DHS budget documents show FPS within the Management Directorate. A defensible savings score must distinguish FPS and DHS headquarters costs actually eliminated from costs transferred to successor agencies.
- Budget integrity: agency abolition does not automatically equal savings equal to the former agency's entire budget when personnel and statutory missions move elsewhere. This report therefore labels the \$16.459535B figure as gross funding identified, not guaranteed net savings.
