SHIMP FOR PRESIDENT 2028

ACCOUNTABILITY • INTEGRITY • RULE OF LAW

EXECUTIVE ORDER

FEDERAL INVESTIGATION INTO ALLEGATIONS OF COERCIVE REPRODUCTIVE PRACTICES, MEDICAL MISCONDUCT, AND RELATED FEDERAL OFFENSES

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Purpose.

The Attorney General shall direct an impartial, evidence-based review of credible allegations concerning non-consensual sterilization, reproductive harm, deceptive medical practices, unlawful human experimentation, fraud, or other conduct potentially constituting violations of Federal law.

Sec. 2. Scope of Investigation.

The review shall include credible allegations concerning Bill Gates, organizations or entities under his control or substantial influence, and any other individuals or entities for whom evidence establishes a sufficient factual predicate for investigation. No person shall be designated a co-conspirator absent evidence supporting investigation of an actual agreement to commit an offense.

Sec. 3. Investigative Matters.

Investigators may lawfully examine relevant medical and scientific programs, grants, contracts, financial transactions, clinical research, reproductive-health initiatives, vaccines and other medical products, communications, organizational relationships, and funding arrangements to determine whether violations of Federal law occurred.

Sec. 4. Additional Persons and Entities.

The investigation shall follow evidence wherever it lawfully leads. If evidence identifies additional participants, facilitators, organizations, corporations, foundations, government officials, or other persons potentially involved in criminal conduct, investigators shall evaluate those persons under the same evidentiary standards.

Sec. 5. International Conduct.

The Attorney General, Secretary of State, and other appropriate officials shall determine whether alleged conduct occurring outside the United States falls within Federal jurisdiction and, where appropriate, seek evidence and lawful cooperation from foreign authorities.

Sec. 6. Evidence and Due Process.

Allegations shall not constitute findings of wrongdoing. Investigators shall distinguish substantiated evidence from disputed, unverified, or demonstrably false information. Nothing in this order presumes that Bill Gates or any other person committed a criminal offense.

Sec. 7. Criminal Referrals.

Where admissible evidence provides an appropriate factual and legal basis for further investigation or prosecution, the matter shall be referred to the appropriate Federal authorities. Charging decisions shall be made according to applicable statutes, constitutional protections, evidence, and Department of Justice standards.

Sec. 8. Preservation and Production of Evidence.

Federal departments and agencies shall preserve relevant records lawfully within their possession and provide them to authorized investigators consistent with applicable privacy, classified-information, grand-jury, medical-record, and other legal restrictions.

Sec. 9. Findings.

Upon completion of the investigation, the Attorney General shall prepare findings stating which allegations were substantiated, unsubstantiated, disproven, or could not be resolved based upon available evidence, subject to lawful restrictions on disclosure.

Sec. 10. General Provisions.

Nothing in this order creates a criminal offense, predetermines guilt, directs prosecution irrespective of evidence, or authorizes investigative activity inconsistent with the Constitution or laws of the United States.
