Dear Friends and Neighbors –

We find ourselves in extraordinary and historic times. Laker Republican Club extends its support to the Mountain Lakes families impacted by our nation's current public health crisis.

A key tenet of Laker Republican Club's platform is a focus on the value of Mountain Lakes today and tomorrow. Value extends beyond economic and monetary measures, and importantly includes our social fabric and the manner in which we convene and act as a community. In our opinion one of the true values of Mountain Lakes is our civic spirit and character, and it is something we should guard fiercely.

Character transcends class, race, gender, political party or ideology. A community's character is the collective motives and actions of individual residents who, in times like these, come together in service to others. And, not surprisingly, so many Lakers have risen up in the spirit of volunteerism and service for our community. This includes supporting charities and local restaurants, giving blood, checking in on elderly neighbors, and helping with visits to grocery stores and pharmacies to assist neighbors.

A number of you have approached us (not just Republicans!) and asked how you can help, or if we were aware of like-minded residents looking to lend a hand. Given the volume of inbound inquiries, we felt it was appropriate to issue a communication.

As such, if you or someone you know needs assistance during the Covid-19 pandemic, please contact us at:

**Lakers@LakerRepublicanClub.com**

We will connect you to local volunteer resources.

Naturally a few of our conversations grew to broader volunteerism opportunities within Mountain Lakes, and ways residents can be involved in our community. Fortunately, our Borough website has organized access to a spectrum of choices:

Like so many of you, we look forward to a return to normalcy - gathering together as neighbors at our places of worship, schools, beaches, parks, and backyards. Until that time, we are inspired by your actions to serve the greater good and put community first.

Fondly,  
Laker Republican Club
