

Portfolio

[Glazzio](#) (Tile, Mosaics, Large Format) - For 20 years Glazzio Tiles has offered a unique appearance unachievable with conventional tiles. The vibrancy and depth of color combined with the reflective quality of glass results in a unique and dramatic effect, whether used in the home or modern commercial buildings. Glazzio has the best mosaics in the market bar none, our shipping is quick and our customer service beyond reproach. Link is to our online pricelist. Pp. 3-10

Freight (Newark, NJ): \$.99 per sheet (\$14.85 min)/ \$149 per pallet (151+ sheets)

[Unique Design Solutions](#) (Tile, Mosaics, Custom) - Offers the capability to custom order glass tile according to paint color, to our Design-Play-Create Mosaic Creator that gives you the ability to design a mosaic from scratch, to our architectural & design special order solutions, to our robust dealer network, to our American manufacturing facility that can turn orders around quickly and with integrity and care. P. 11

Freight (Phoenix, AZ): \$50 drop

[Durato](#) (LVT, Laminates, Commercial) - This is the best luxury vinyl tile on the market bar none. It features a diverse color pallet unique to each series, the best click system in the industry, exclusionary processing to ensure quality control and the hardest wear layer in the industry (QXT Diamond Dust). Please see attached Dealer Pack for more information. Pp. 12-26

Freight (Houston, TX): \$119 drop

[SLCC](#) (LVT, Laminates, Hardwoods) - SLCC Flooring products deliver unmatched beauty, durability, structural strength, and overall long life to your home or commercial space. Vertically integrated tree farms in Vietnam ensure a deep stock of unique hardwoods. Pp. 27-64

Freight (San Jose, CA): Above 500 sqft no charge/Under \$159

[Celeste](#) (Engineered, Solid Hardwoods) - From a variety of species selected for their unique graining and texture, Celeste Floors are designed for style, quality, and durability. Drawing on our roots as a high quality, value oriented wood flooring supplier, the Celeste brand represents the best of our Engineered hardwood and solid hardwood flooring styles. Pp. 65-84

Freight (San Jose, CA): Above 500 sqft no charge/Under \$159

[Biyork](#) (LVT Laminates, Hardwoods) - We Believe that everything we do is a movement towards an alluring combination of Dynamic Performance and Modern Craftsmanship. Pp. 85-97

Freight (Ontario, Canada): Per Order

[Traingulo](#) (Exotic Hardwoods) - Dedicated to the manufacturing of hardwood products since 1972. This family-owned business in Brazil has been globally recognized for sustainability, innovative products and cutting-edge technology. Pp. 98-105

Freight (Chesapeake, Virginia): \$150 drop

[Signature](#) (Carpet Tile, Broadloom, Hard Surface, Custom, Hospitality, Commercial) - Signature is a flooring industry leader focused on helping our clients create extraordinary hospitality and senior living spaces. Fueled by a passion for our craft and a complete dedication to service, we are driven to achieve exceptional flooring solutions that expand each client's vision. Through creative styling, world-class custom design capabilities, a spirit of innovation and the highest quality of service, we provide an experience as inspiring and authentic as our flooring. Pp. 106-110

Freight (Dalton, GA): Per Order

[Nourison](#) (Rugs, Broadloom, Wool, Custom, Commercial) - or more than 30 years, Nourison has built a reputation as a leading multi-category resource in today's floor covering market, working with designers and retailers to provide beautiful, top-quality rugs, carpets, and home accessories for homes around the world. Our company offers a comprehensive range of products across styles and price ranges, in both commercial and residential spaces. Pp. 111-130

Freight (Calhoun, GA): Per Order

Portfolio

[Hagaman](#) (Wool, Broadloom, Custom, Commercial) - Part of the CCA's 2.0 revamp, Hagaman brings value to the wool market with broadloom carpet collections which offer distinctive designer styling, and luxurious constructions at remarkably affordable price points. Pp. 131-135

Freight (Calhoun, GA): Per Order

[J Mish](#) (Wool, Broadloom, Rugs, Custom) - J Mish has a broad product offering from tufted through woven and hand loomed goods. The breadth of our manufacturing technologies allows us both styling range and great flexibility. We are able to offer broader color palettes than are typical for wool carpet lines. We also are able to customize color, weight, design and texture with low minimums and quick turn-around, allowing us to meet the needs of the design marketplace. P. 136

[Kaleen](#) (Wool, Broadloom, Rugs, Custom) - Kaleen is headquartered in Mumbai, India, and has three manufacturing units in Bikaner, Mirzapur, and Panipat where yarn rugs and broadloom are produced and shipped, using various international operations, and our United States office and distribution center in Dalton, Georgia. Kaleen's point of pride and commitment to customer satisfaction reflects the proven success for over 50 years within the textile industry. Pp. 137-142

Freight (Dalton, GA): Per Order

[Tretford Carpets](#) (Broadloom, Carpet Tile, Commercial) - Mongolia's steppe landscape with all its unique beauty and rich colors – is reflected in a Tretford carpet. The Cashmere goat's robust and dirt-repellent topcoat forms the basis of each of our carpets. In Wesel on the Lower Rhine, about 100 employees process this gently-cut goat hair into Tretford carpets. Discover the origin of Cashmere goat hair and our "made in Germany" carpets. Pp. 143-144

Freight (Wesel, Germany): Per Order

[Tarkett Home](#) (Residential Carpet, Local Stock) - Formally Lexmark, but now revamped and revived, this mill still offers the best patterned repertoire at a great value. Produced on a 10-gauge loom and a double latex backing for added dimensional stability and twice anchored loops. Pp. 145-148

Freight (Local Stock, Dalton, GA): \$85 drop for in stock sku's/LTL non-stock

[Mathews & Parlo](#) (Residential Carpet, LVT) - Comfort, durability, and performance. Mathews&Parlo carpet has all three thanks to our PureColor™ Fiber System. PureColor™ fiber is solution dyed. In comparison with other conventional carpets, that means better stain resistance, color fastness, and longevity. Mathews&Parlo is committed to providing the best soft surface flooring. Pp. 149-150

Freight (Dalton, GA): Per Order

[RubberLogix](#) (Rubber) - Now supplied all 50 states, Japan, Canada and South America with its exceptional products. Our goal is to prevent another tire from being thrown into another landfill or illegally dumped in our great country. Right now, we recycle an average of 4 million tires that are being repurposed. Pp. 151-152

Pilot Mountain, NC): Per Order

[Fordom](#) (Turf, Nylon, Outdoor) - FORDOM International is a manufacturer and importer of commercial flooring products. Features a broad selection of outdoor carpets and turf. Pp. 153-157

Freight (Bristol, PA): Per Order/ Some local stock

[Kasaro](#) (Acoustic Wall Panels) - High quality acoustic wood paneling which installs easily and provides a unique and functional modern aesthetic. Pp. 158-159

Freight (Houston, TX): Per Order

[HNL Products](#) (Pad, Sundries, Local Stock) - Partnering with resources like XGS Global in sundries, carpet pad and building materials, you will find local stock from our warehouses in Portland, Kent and Spokane.

Freight (Local Stock): Per Order/ Will-Call in Portland, Kent and Spokane

Product and Display Information

Steven Sweeney
Direct: (631) 375-6564
Email: steves@glazzio.com

For over 20 years Glazzio has offered a unique appearance unachievable with conventional tiles. The vibrancy and depth of color combined with the reflective quality of our glass, ceramics and porcelains result in a unique and dramatic effect, whether used in the home or modern commercial buildings. We are the most trusted, responsive and reliable name in the business and have confidence you will find our variety and styles not only the most relevant to your market, but unlike any other on the showroom floor. Product ships from our warehouse in Newark, NJ via carriers like UPS and is inexpensive and quick. Orders are processed immediately and ship the day of, usually arriving within one business week. Rush deliveries can be submitted until 2 pm EST. I will personally assemble and maintain your display and perform a full PK for the team at your request. Finally, and maybe most important of all, our customer service is top notch, should you have any questions at all feel free to contact me personally at any time and I will get back to you right away. Please feel free to view our online pricing catalog at <https://glazzio-tiles.dcatalog.com/v/Glazzio-Tiles-Price-List/> and should you wish to open an account complete the enclosed "New Customer Setup Form" and return to the email provided above.

Full Display: *Glazzio offers the very best in mosaics and tile and a full display set is not only your best option, but the only way to most effectively show exactly how we differentiate ourselves from our competitors. It consists of 2 standard four corner racks which arrive already assembled.*

Gondola Display: *If two racks cannot be accommodated on the showrooms floor, Glazzio also offers gondola style display (50x24x88).*

We are a diverse blend of innovators, artisans, craftspeople, and service professionals. Together, from our state-of-the-art factory in Phoenix, Arizona, we are building something amazing – one of the industry's most innovative American tile companies.

From our Color Solutions that allow you to custom order glass tile according to paint color, to our Design-Play-Create Mosaic Creator that gives you the ability to design a mosaic from scratch, to our architectural & design special order solutions, to our robust dealer network, to our American manufacturing facility that can turn orders around quickly and with integrity and care, we have the capabilities and the processes in place to help you create without limits.

Stock Collection - Is everything starting to blur together? Are you looking for a custom look without the custom price? Our in stock mosaics & tiles are precisely what you need. Our product designers have specially designed this line with you in mind so you can have a unique look at an affordable price. All products in this line are in stock in our warehouse and will generally ship the same day.

Custom Collection - Our custom tile is made-to-order by hand in Phoenix, Arizona, and shipped with foam injection packaging, ensuring that your mosaic is delivered to you with the utmost integrity and care.

Mosaic Creator - Our Mosaic-Creator, powered by Your Imagination™, is ready to bring your creative vision to life. We have numerous patterns ready to use with a wide array of chip options including glass, natural stone, porcelain, and metal. The options are limitless! All you have to do is pick a pattern, materials/colors, grout color and we will take care of the rest!

Since 2014 Durato has been committed to developing the best flooring options on the market and with an unparalleled dedication to quality, we proudly boast the lowest defect rate in the industry. After all, creating a superior product starts with the best ingredients. UV stable paints from Germany, Titanium plates designed in Italy then hardened in Belgium, and virgin raw materials are just some of the many qualities which differentiate us from the rest. Best of all, I am the first to introduce these products to the West Coast, you would have a line no one else in your market is currently showing.

A strong commitment to innovation has led to a number of unique features you will find in no other product. Our Quantum XTM Wear Layer with diamond dust technology provides industry-leading protection against scratches, stains, and dents. A proprietary Valinge lock system make our planks the most versatile, reliable and installation-friendly on the market. ClimateGuard® ensures our SPC is the best choice for all environments and AuthenTex® provides amazingly realistic registering and embossing, perfectly tracing wood grain indentations on the final press. All to complete an LVT that is fully waterproof, has an AC4 commercial rating, aggressive pricing and a color pallet that is as uncommonly relevant as it is diverse. On the specs, we beat our competitors at every turn, but what about our character?

Durato is a minority and disabled US Veteran owned business. Valuing our dealers means you will never find our products in a big box retailer or sold online direct, and our loyalty program provides benefits like a series wide discount, free advertising and priority service. Finally and maybe most important of all, you will have responsive representation you can trust for the long haul.

Durato Headquarters
600 Edwards Rd. Suite B
Fort Pierce, FL 34982
P: (267) 343-3480
E: info@duratousa.com

BREATHE EASY

Our products are manufactured to LEED and FloorScore standards for Indoor Air Quality and are certified to be free of Volatile Organic Compounds. Volatile Organic Compounds (VOCs) are chemicals found in many products

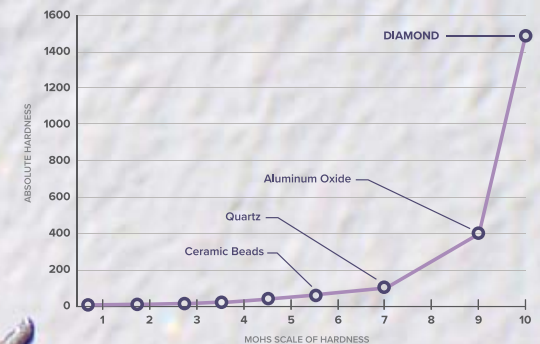

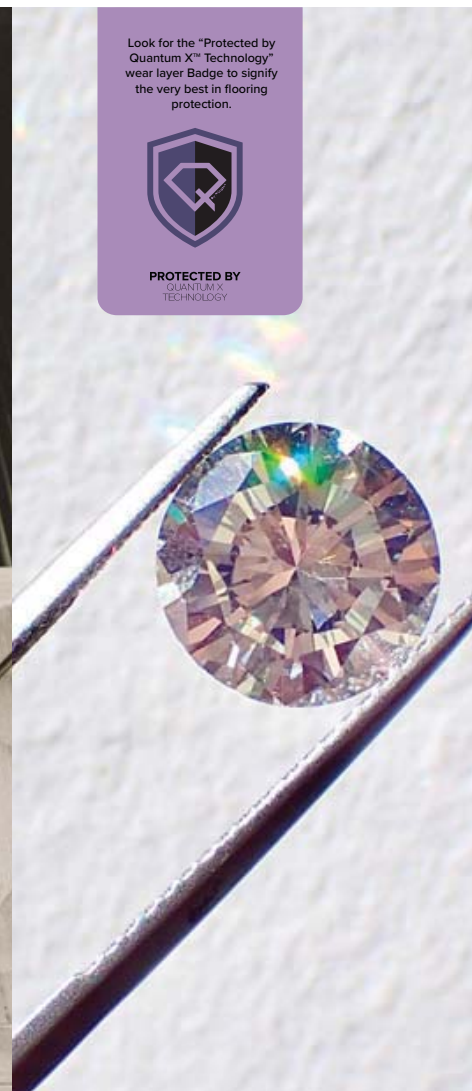

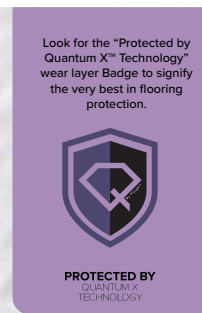

used to build and maintain homes that are released into the indoor air we breathe; with **Durato flooring in your space, you can breathe easy knowing VOCs are no concern.**

QUANTUM X™ TECHNOLOGY

Diamond Enhanced Wear Layer Resistant to Scratches, Stains, and Dents.

A coveted symbol of beauty and longevity, diamonds are one of **nature's hardest surfaces**. With their unrivaled strength, real diamonds are the key ingredient in our Quantum X™ Technology Wear Layer,

which results in **unparalleled protection** for our floors. The double UV Fade coating ensures the product is **flame/stain/scratch/indent resistant** so your floor stays looking as good as it did when it was installed.

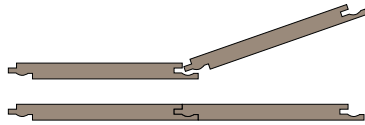

MEASURING SCRATCH RESISTANCE

The Mohs scale of mineral hardness rates the scratch resistance of various minerals. While many flooring products utilize materials such as Aluminum Oxide, Quartz, and Ceramic Beads for durability, Diamonds dwarf those elements on the Mohs scale.

CLICK LOCKING SYSTEM

We listened to the commercial flooring mechanics and developed a modified locking system invented by two patent holders. We improved it by partnering with the tool makers and asked if we could experiment with different angles and thickness to see if it would improve installer experiences. After numerous attempts we were able to find a unique cutting tool profile that works better. All Durato Floors are made to a higher standard. We believe better ingredients, ingenuity, processes and after sales support is the key to successful flooring installations.

FEATURES

- Modified click lock based on the strongest and easiest locking systems
- Unique angle of locking mechanism
- Thicker and longer locking system for ease of install and stronger lock
- Quicker install time

IXPE PAD

FEATURES

- 100% waterproof
- Impervious to mildew, mold, rot, and bacteria
- Excellent insulator, perfect for radiant heat floors
- Superior sound reduction

Our IXPE is the newest advanced cross-linked foam technology designed to provide supreme sound reduction, shock absorption and advanced moisture protection. All Durato floors come with the IXPE pad already adhered to the back of each plank for easy installation as well as providing a healthier, softer, and quieter living space.

AuthenTex™ Finish

Our AuthenTex™ Finish combines high definition imagery with an Embossed in Register (EIR) to expertly recreate the look and feel of natural hardwood. Unlike many flooring products that are manufactured with random or no embossing, AuthenTex perfectly traces the wood grain to create indentation where needed and provides a stunningly realistic finish. Unlike smooth floors that lack embossing, the AuthenTex finish also provides a level of slip resistance for added safety, as the textured surface is easier to traverse. By combining the timeless look of classic high-end hardwood with the benefits of modern flooring, the result is a surface that feels as luxurious as it looks.

The background of the entire page is a soft, out-of-focus image of a green leaf. Several clear water droplets of varying sizes are scattered across the leaf's surface, particularly concentrated on the right side. The overall color palette is a range of greens, from light to dark, creating a fresh and natural aesthetic.

WPC FLOORING

Affordable, water-friendly and worry-free. These are words that can best describe the reason for these collections. Beautiful real wood images are featured with the ease of maintenance for busy, active households. Exceptional durability suitable for residential or commercial applications. These 100% waterproof floors can be installed everywhere, including kitchens, bathrooms, cafes or restaurants.

Davis

Provincial

Inspired by the heritage of the western mining towns, these rustic decors give a nod to their rich history. Our most realistic, embossed-in-register texture include an attached sound absorbing padding for quiet and underfoot comfort.

ENGINEERED FLOORING

From our high end Villa Collection to our value driven Pacific Coast Collection, quality manufacturing and selection of species are of paramount importance. European Oak, North American Maple and Hickory, African Mahogany and Acacia are selected for grade, thickness, length and width profiles under the strictest of standards. Our selection process allows us to offer a greater variety in flooring style options and price points.

From a variety of species selected for their unique graining and texture, Celeste Floors are designed for style, quality, and durability. Drawing on our roots as a high quality, value oriented wood flooring supplier, the Celeste brand represents the best of our Engineered hardwood and solid hardwood flooring styles. At Celeste, we believe in offering beautiful and durable wood flooring, while being environmentally responsible. Which is why we only select Eco-friendly materials for all our products in addition to minimizing any by-product waste throughout the entire manufacturing process. In fact, all our products carry a FloorScore Certification from SGS Global services. We also encourage our business partners and staff to promote green living through our commitment and long-term participation in local protection programs.

ENGINEERED FLOORING

Villa Collection

Beauty is in the details, such as the hand dyeing process used in the creation of our Villa Collection hardwood flooring. Unlike a machine dye process, hand dyeing creates an unmatched aesthetic by accentuating the naturally occurring subtle shade variations found in each wood species for a truer representation of their unique beauty. Hand dyeing adds a distinct elegance and beauty that provides an upscale look to any space and décor.

We Believe that everything we do is a movement towards an alluring combination of Dynamic Performance and Modern Craftsmanship. Every aspect of our floors are designed in pursuit of performance ready for the world. Everything we do, from Sourcing Raw Materials, Research and Development, to Shipping, BIYORK undergoes meticulous steps to create the best floors for your space.

HydroGen Pro offers two thicknesses of 2mm and 3mm and retains the beauty of a natural floor. Our Innovative Texture technology gives you the feeling of a natural floor while adding a strong protective layer for wear resistance. This is the perfect collection for commercial applications.

TrueShield™ is a coating layer that provides scratch, stain and wear resistance. Biyork's proprietary wear layer blend ensures enhanced protection, performance, and prolonged lifespan of the flooring.

Triângulo Hardwood Flooring has been dedicated to the manufacturing of hardwood products since 1972. This family-owned business in Brazil has been globally recognized for sustainability, innovative products and cutting edge technology. As the hardwood flooring industry has evolved over the last several decades, Triângulo has adapted to the requirements for the domestic and foreign markets.

The Triângulo manufacturing facility and administrative offices are located in Curitiba-PR and has a total built area of approximately 27 thousand square meters. The manufacturing facility uses high-tech environmentally-friendly equipment which produces less pollution and utilizes the resources in a sustainable manner to create high quality hardwood flooring.

The company also has their own forest in the Northern region of the country, which is where all their raw material comes from. This sustainable forest, also known as the Manoa forest is approximately 160,000 acres and home to many different species

FROM OUR OWN FOREST TO YOUR HOME

160,000 ACRES OF PRIVATE CERTIFIED FOREST

Triangulo's Prefinished Hardwood Flooring is the final stop in a lengthy process that begins in an area of Brazil that is privately owned by Triangulo Industries.

TRIANGULO HAS INVESTED IN THE PRESERVATION OF ITS FOREST LAND FOR MORE THAN 40 YEARS

On the forefront of innovation is the leader in preservation and knowledge of the Brazilian Rain Forest, the relationship with the environment and commitment to the community within the Amazon region.

Triangulo has been acknowledged also by FAO (Food and Agriculture Organization) of United Nations as a

"EXEMPLARY CASE OF SUSTAINABLE FOREST MANAGEMENT"

INTERNATIONAL ACKNOWLEDGEMENT

Triangulo is recognized globally for its sustainability and positive environmental contributions.

The mark of responsible forestry

FSC: Our forest is recognized for the sustainable handling system, in full compliance with the FOREST STEWARDSHIP COUNCIL.

Greenguard: The Triangulo's products do not release formaldehyde, thus meeting the standards on established criteria from key public health agencies.

LACEY ACT: Although located in South America, Triangulo works in full compliance with the rules of the United States legislation to protect forests, banning the use of illegally sourced wood or other natural resources.

NATURE CRAFT, GLUE DOWN

REAL APPEAL, LOOSE LAY LVT

LEADING WITH DESIGN IN LVT

Signature offers a full range of LVT products and is a leader in style and design aesthetics, from *glue down*, *click*, and *loose lay constructions*.

Featuring Signature's LVT collections with various design aesthetics, sizes and colorations working for all types of interior spaces.

SIGNATURE'S LVT FEATURES

- Design Aesthetics
- Range of formats for design flexibility
- Offering the right product for the right space
- Integrated design coordinates with our carpet products
- Urethane and ceramic finishes for superior stain, fade and wear resistance
- Seamless transitions available with LVT Loose Lay and our Carpet Tile
- SignatureNOW service inventory
- Competitive pricing and value

WORKING TOGETHER CARPET TILE & LVT

Transition seamlessly with any of Signature's carpet tiles with Real Appeal Loose Lay LVT, both are at the same height thickness to possibly eliminate transition strips.

- Ease of foot traffic and roller mobility
- 5mm thickness, same thickness as our carpet tiles

NATURAL INSTINCT, WPC

Featuring the realism of embossed-in register detail, Natural Instinct explores a luxurious palette of rustic modern wood visuals in impressive 9" x 60" planks.

NOTABLE, WPC

Distinguishable in all types of spaces, Notable provides an array of wood visuals. Colors include warm and cool gray tones, as well as rich, deep browns and bleached woods. All offered in 6" x 48" planks with high variation contrast.

Natural Instinct and Notable's composite core is waterproof and offers excellent comfort underfoot with an attached acoustical sound-deadening pad.

REAL APPEAL and VIVID EXPRESSIONS, LOOSE LAY

Features oak, maple, pine and hickory wood grains. Both available in 5mm loose lay construction, 6" x 48" Real Appeal and 9" x 59.72" Vivid Expressions size.

NATURE CRAFT, GLUE DOWN

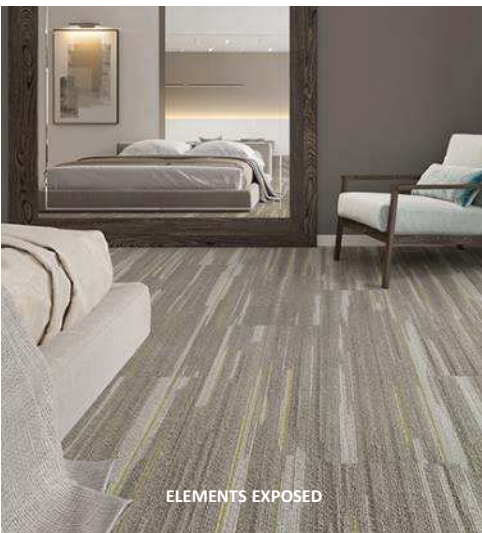

From oak, maple, and elm wood grains to a variety of colorations ranging from neutral beige to tavern brown and desirable greys. Available in 7" x 48" plank size, 12MIL and 20MIL constructions.

FASHION PLANE & FORMWORK

FORMWORK & REAL APPEAL, LVT

ELEMENTS EXPOSED

BEVEL | BEVEL ACCENT & HUE, SOLID COLOR TILE

BEAUTIFUL CARPET TILE STYLES COMPLIMENT MULTIPLE SPACES

Featuring various carpet tile patterns from geometric, abstract, organic and solid color accent tiles used for coordination and pops of color. All of our carpet tiles are available in square and plank sizes and can be mixed and matched through out multiple interior spaces.

 Signature

CARPET TILE

Featuring Signature's carpet tile collections with various design aesthetics, sizes and colorations working in all types of interior spaces.

Elements Dissolved & Elements Exposed

Drawing inspiration from the industrial aesthetic of oxidized metal, Elements Dissolved and Elements Exposed turn weathered metallic patinas into a unique pattern of abstract sophistication.

- Two Styles
- 9 colorways for each style
- 24" x 24" and 12" x 24" size
- Customize Elements Exposed accent stripe for a 250 sq.yd. min.

Bevel | Bevel Accent & Grid | Grid Accent

Architectural details define a floorscape with Bevel | Bevel Accent and Grid | Grid Accent. A linear framework and interlocking patterns create intricate angles and shards across a space.

- Four Styles
- 6 colorways for each style
- 24" x 24" size
- Customize Bevel Accent or Grid Accent for a 250 sq.yd. min.

Terra Cruda Collection | Fashion Plane & Formwork

Terra Cruda gets its name from the rugged, natural textures and accumulative layers of earthen forms. The collection draws inspiration from these elements in Formwork and Fashion Plane.

- Two styles
- 12 colorways for each style
- 24" x 24" and 12" x 48"

HUE

A solid color tile with vivid colors and linen-like texture, Choose from a striking color palette made to enhance the myriad color needs of interior spaces.

- 21 colorways
- Accents, insets and borders only
- 24" x 24" and 12" x 48"

CARPET TILE & LVT WORKING TOGETHER

Transition seamlessly with any of Signature's carpet tiles with Real Appeal Loose Lay LVT, both are at the same height thickness to possibly eliminate transition strips.

- Elimination of most transition moldings
- Lower profile for safer foot traffic and ease of roller mobility
- 5mm thickness, same thickness as our carpet tiles

SIGNATURE'S CARPET TILE FEATURES

- Styles range from geometric, abstract and organic to solid color accent tiles that pop and coordinate with other tiles
- Design flexibility through mixing and matching of patterns, colors and sizes
- Creativity with installation methods and sizes that work together in 24"x24" and 12"x48"
- Transition seamlessly with Signature's carpet tile and our LVT
- High Performance Vinyl Composite Backing (non-ortho phthalate)
- Engineered for strong performance with excellent tuft bind and dimensional stability
- Resists delamination, edge ravel, and fuzzing
- Alternative cushion backing available for enhanced comfort and sound absorption
- Custom tile options available
- Stain & Soil Release Technology
- Withstands aggressive wet cleanings
- CRI Green Label Plus
- Lifetime Carpet Tile Warranty for wear, delamination, tuft bind, edge ravel, and static protection

Nourison Home™

who we are

Nourison Home provides a seamless blend of style, quality, and value that caters to our customers' need for a thoughtfully designed home that reflects their values. Our products are intentionally designed to simplify placement and upkeep, freeing our customers to unwind and appreciate their newly personalized living spaces.

our portfolio includes:

- signature rugs for every budget
 - premier broadloom
 - unique custom programs
 - hospitality-grade broadloom
 - decorative home accessories
 - prestige designer partnerships
-

As one of the few in our industry with a vertically integrated business model, we offer an exceptional speed-to-market with over 95% of orders shipped within 48 hours. Nourison Home currently maintains the largest back-up inventory in the world, with over 2 million products in stock and ready to ship.

Our distribution centers are strategically located across the United States, creating a seamless process from the point an order is placed to when it arrives. This has led to our continued recognition as the

industry's top on-time delivery performer.

Doing business with Nourison Home is easy. Our website allows retailers and designers to check stock, place an order, and check their order status at any time. While web purchases are limited to the trade, our commitment to service has led to the implementation of an upgraded dealer locator. This gives end consumers a convenient way to shop Nourison Home both in-store and online while driving business to our retail partners.

our design difference

Nourison Home sits at the intersection of beauty and practicality. As the market's most diversified producer and importer of area rugs and carpets, we take pride in our ability to produce quality products with signature finishes our customers have come to love. Thanks to our vertically integrated business model, we can offer a variety of designs to meet virtually any budget.

Our unparalleled dealer support system includes a range of online order placement and management tools, a dedicated sales team, and marketing materials that can be tailored to individual retail needs.

Nourison Home currently owns the world's largest private library of original artwork, renderings, and other design archives – many of which date back centuries. Our award-winning design team uses this resource, along with color and trend forecasting, to develop unique designs that satisfy the needs of our market.

Our dedication to innovation has led to Nourison Home's recognition throughout the home fashion community as an industry leader.

custom rug & broadloom programs

Our custom capabilities are second to none. Handmade or machine made, residential or commercial, there is a custom solution. Our broadloom innovations have led to the most diverse custom rug program in the industry — Fifty to Infinity. We have increased our hand

crafted selections as well, which are available in our new Craftworks product line. As new manufacturing techniques allow for increased variety and remarkable affordability, customized floor fashion can be made to accommodate any space.

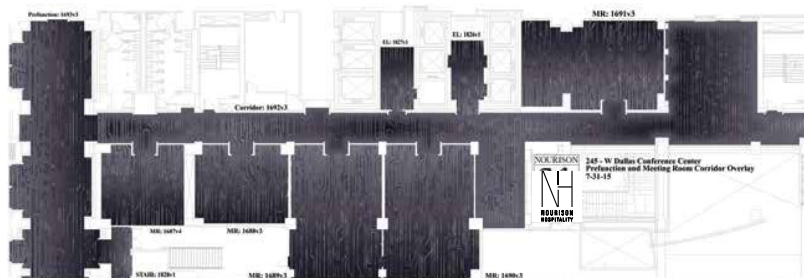

Nourison Hospitality sets a new standard in luxurious floor coverings, with premium carpets and rugs for corporate, hospitality, and upscale commercial properties. Our design team will work with you to create a custom look for your hotel, casino, resort, office, or restaurant. We manage every stage of the process, from yarn dyeing to final delivery, to ensure your vision is brought to life.

For clients on the go, we have developed the Design Now program that lets you recolor hundreds of our most popular broadloom patterns anytime, anywhere. Visit designnow.nourison.com to get started.

Nourison custom rugs and broadloom grace the floors of some of the world's most exclusive properties, and are recognized

everywhere for their quality, sophistication, and original designs. Nourison's state-of-the-art manufacturing facilities can fulfill the most intricate needs of the hospitality client, and a quarter century of experience gives customers the ability to choose from an enormous variety of stock designs ready for immediate delivery, or detailed customization.

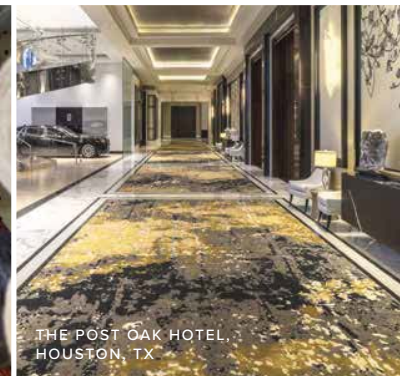

Our distinctive carpets are woven from the highest quality materials, specially dyed with our exclusive techniques, and can be hand-finished to create an unparalleled look of luxury. Antique "abrash" dyeing effects, hand-carving, hand-embossing, hand-serging and luster-washing, are just some of the finishes that make Nourison products the most unique and desirable in the market.

CRAFTWORKS

By Nourison

Hand-crafted custom rugs.

Any size, any shape - two weeks delivery. Select from over 200 styles and color.

Exquisite raw materials and skilled artistry goes into every one of our Craftworks™ hand-made rugs. The shape and size of a rug impacts the overall look and feel of a room, so why settle for stock shapes and sizes? Craftworks™ by Nourison offers standard and custom sized area rugs, all made to order in just a few easy steps.

DESIGN

Choose a style and color from our fine selection of hand-crafted products.

SIZE & SHAPE

Select a size & shape that will fit your personal space and we will create a rug to meet your needs.

FINISH

Craftworks™ custom rugs are made to order. Select the perfect edge finish to complete your hand-crafted rug. Choose from hand-sewn, machine-sewn or cotton bound edge finishes.

Contact your Nourison Sales Person for more information or visit www.nourison.com/craftworks

NOURISON CUSTOM RUGS

Custom order your perfect rug size and Nourison will finish and ship in two weeks or less. Choose from hundreds of styles and multiple price points to fit your customers' needs.

01. SELECT YOUR DESIGN

Choose a style and color from any of Nourison's fine broadloom.

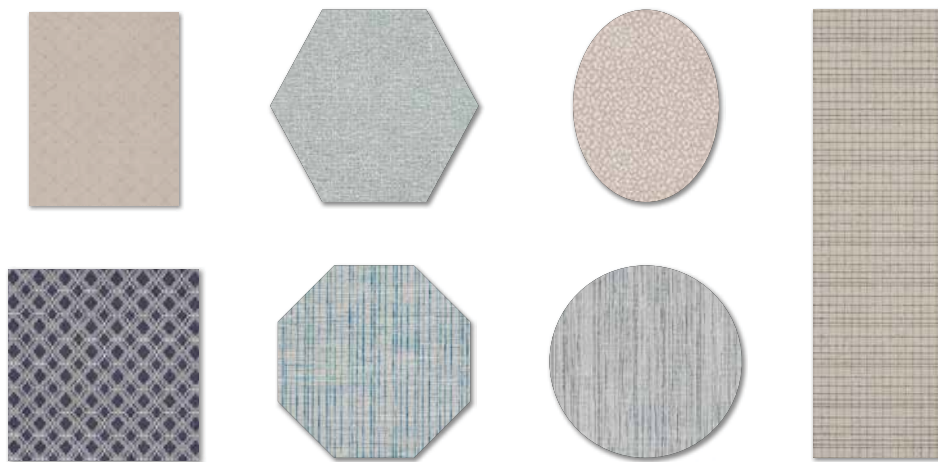

02. CHOOSE YOUR SIZE & SHAPE

Select a size & shape that will fit your space.

03. PICK A FINISH

Choose from coordinating binding, hand-sewn, or machine sewn edging to complete a custom rug.

Don't forget to protect your rug with Nouri-Guard protectant and a rug pad. Visit Nourison.com/custom for more details.

WASHABLE AREA RUGS

ASTRA WASHABLES: ASW12 GREY MULTICOLOR

HOT TREND

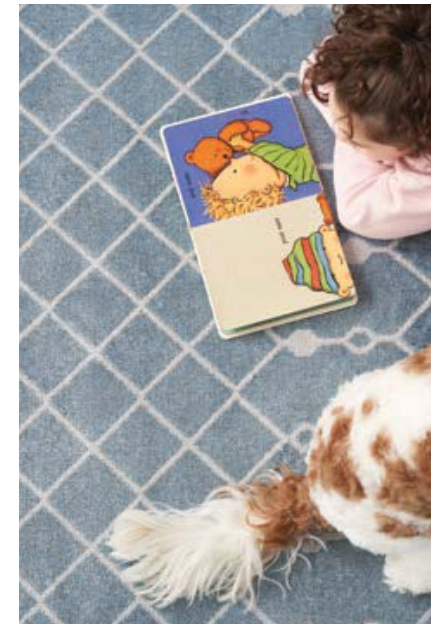

Washable Rugs

Washable rugs represent a significant leap forward in home decor, combining style, functionality, and ease of care in a way that suits the busy lifestyles of today's families. Accidental spills, pet hair, and dirt can be easily removed by simply tossing the rug into the washing machine, ensuring your living space remains hygienic and looking fresh. This feature is perfect for households with children, pets, or allergy sufferers, as it helps maintain a cleaner indoor environment by reducing dust and allergens trapped in traditional rugs.

Nourison Home's washable rugs are available in a myriad of designs, colors, and textures, allowing homeowners to not compromise on style while ensuring durability and longevity. The ability to wash them regularly makes them a cost-effective solution for adding warmth and character to any room.

This "Performance Product" is a growing category and now is the perfect time to get started. Contact your salesperson today!

Hagaman

By Nourison

ABOUT HAGAMAN

Hagaman broadloom carpet collections offer distinctive designer styling, and luxurious constructions at remarkably affordable price points. We achieve this innovative combination of fashion and value, by employing Nourison Home's completely vertical fiber processing, and company-owned manufacturing facilities. Our vertical manufacturing processes allow us to ensure quality craftsmanship from fiber dyeing to final product delivery. Hagaman offers fine style and craftsmanship in woolen carpet, at a price you can afford. Photos in this catalog are for reference purpose. Actual color may vary.

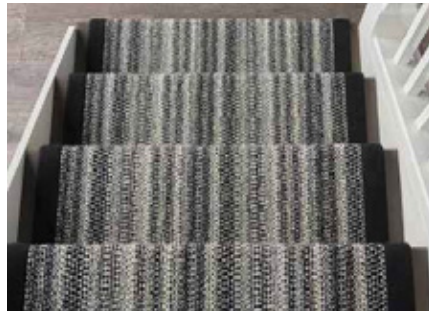

All Hagaman broadloom products can be fabricated into custom-sized area rugs in three wasy steps.

- 1 Select your carpet style & color.
- 2 Select a size that fits your space.*
- 3 Select your custom edge finish.

*to the maximum width of the broadloom

As an American-based manufacturer with mills in Cartersville, GA, J Mish has a broad product offering from tufted through woven and hand loomed goods. . Products are developed slowly and carefully, from the beginning stage of dyeing the yarn through the intricate tufting process to the final shearing and backing of the carpet. Our medium size allows us to be responsive and flexible. We are able to offer broader color palettes than are typical for wool carpet lines. We also are able to customize color, weight, design and texture with low minimums and quick turn-around, allowing us to meet the needs of the design marketplace.

In addition to the wide range of tufted products in J Mish's Signature Collection, we recently expanded our offering by acquiring the North American operations of Riviera Carpets. J Mish's Riviera Collection is an imported line made up of high end Wilton, hand loomed, flat woven and tufted products. We also recently acquired the Woolshire product line. J Mish's Woolshire Collection includes a group of tailored wool carpets in natural heather colors. The portfolio is rounded out with our Ecco Tex Collection, a product offering that merges sustainable features with value, using a proprietary renewable, recycled content wool blend yarn system.

For more than 50 years the Kaleen family has built a reputation as a leading manufacturer, importer, and distributor of multi-category resources in today's floor covering market, working with designers and retailers to provide beautiful top-quality rugs, carpets, and home accessories for homes around the world.

Kaleen is headquartered in Mumbai, India, and has three manufacturing units in Bikaner, Mirzapur, and Panipat where yarn rugs and broadloom are produced and shipped, using various international operations, and our United States office and distribution center in Dalton, Georgia. Kaleen's point of pride and commitment to customer satisfaction reflects the proven success for over 50 years within the textile industry. The strength of Kaleen's skilled artisans allows for many opportunities no matter the size or complexity of the project. Kaleen's new and existing manufacturing plants are certified as "GREEN ENERGY," i.e. solar power and recycling water plants.

The Kaleen Lifestyle.

STORY OF QUALITY, CRAFTSMANSHIP AND HUMAN COMPASSION.

For more than fifty years, the Rathi family has built a reputation as one of the leading distributors, importers and manufacturers in the textile industries. Since its inception in 1996, Kaleen Rugs has become known for producing the highest quality rugs and broadloom at affordable prices. Kaleen's unique and stunning designs have captured the attention of celebrities, high-end retailers and interior designers from around the world.

Each rug Kaleen produces is truly a unique work of art. Our story starts with sourcing high quality wool from all around the world which ensures consistent quality year after year. The wool is then blended and spun by hand to create our truly unique yarn. The Kaleen yarn is then hand dyed using several different techniques creating vibrant, rich colors in a variety of styles and shades.

Kaleen's Master Weavers still use ancient rug making techniques such as hand knotting and hand tufting when creating our rugs. Once crafted, Kaleen rugs are then carved by hand and then treated with our proprietary organic latex. The Kaleen latex is equally as important and unique to our process of creating a tufted rug. Our latex protects our rugs from breakage and naturally acts as a mold preventative.

Eco-friendly manufacturing, organic materials and a deep compassion for life on earth is what makes Kaleen more than just a brand - it's a lifestyle. Kaleen's manufacturing facilities are Green Energy Certified and harness electricity from the sun using solar panels and use water recycling systems for clean water.

Kaleen manufacturing facilities are ISO 9000 & SA8000 certified and implement an effective quality assurance program that includes the constant checking and maintaining of the eight management principles which all requirements are based upon.

HIGHEST QUALITY

UNIQUE YARN

ANCIENT TECHNIQUES

Types of Construction.

HAND-KNOTTED *Highly detailed.*

A high-end rug that usually takes multiple weavers many months to make. Each knot is hand-tied and the production process is long and complex. Large rugs may have millions of “knots” used to make a future “antique rug” and the perfect family heirloom.

HAND-TUFTED *Affordable luxury.*

Kaleen’s hand-tufted rugs are typically made using 100% imported wool or a wool-blend. Due to their thick piles and the way they are constructed, hand-tufted rugs are great to use in heavy traffic areas and will provide beauty for many years to come.

When making a hand-tufted rug the first step is always the design. Once Kaleen’s artists have the look finalized, they begin to trace the design onto a full-size canvas – this step is called mapping. With the use of a tufting gun, skilled artisans punch Kaleen’s unique, hand-dyed yarns through the canvas bringing each rug to life, strand-by-strand.

Once the rug is finished being tufted, Kaleen’s proprietary latex is then applied to the bottom of the rug – further fusing the canvas and yarn. While the latex is still wet, the bottom of the rug is then covered with Kaleen’s signature cotton backing, *which helps to protect the rug from breakage and skidding.*

HAND-WOVEN/HAND-LOOMED *Dedicated to the craft.*

Requiring expert knowledge, skilled artisans are necessary for this traditional method of weaving that produces flat rugs with highly detailed patterns. A precise manual weaving technique, involving vertical or horizontal looms, carried out by highly skilled artisans. These are done on a loom and the process takes 1-4 people depending on the size of the rug. On the loom, the yarn or weft is thrown through the middle of the bottom and top warp. The weaver then compacts the rug with the beater and the weft and warp are woven together. This alone is considered a flatweave. A pile is a difference between a flatweave and a loomed rug.

POWER-LOOMED/MACHINE-MADE

Machine-made rugs, also known as machine-woven or loom woven rugs, are rugs woven on power looms operated either by hand, machine, or computer. Moreover, machine-made rugs can imitate the patterns used in the most popular handmade designs at much more affordable prices.

TABLE-TUFTED

To cater to diverse requirements for more economical products and faster lead times, this technique has emerged. It’s basically like the hand-tufted process with a change of using a modified sewing machine to do the tufting.

PIT-LOOMED

Pit-Loom is set by sinking four posters into the ground and with an overhang slay. In case of pit loom, the yarn work inside the pit so that the warp yarn may absorb moisture and better weaving will result. In this loom, the combination of slaying and shuttle boxes.

BRAIDED

A flat braid construction is a common construction as it is one of the easier and more classic methods. Three ropes of fabric or yarn are intertwined. A yarn braid construction evolves from yarn in its initial state to a uniquely finished area rug. Braiding is an extremely old yet versatile technique that has been modernized over recent decades to display its appeal and charm.

Other Brands.

HOME AND PORCH is Kaleen's newest division of high quality Indoor/Outdoor performance broadloom carpeting. Home and Porch is 100% PET Polyester, made from recycled plastic bottles. Perfect for high-traffic areas These styles are stain-resistant, easy to clean and UV-stabilized, to provide fade and heat resistance.

HOOK & BEAM is Kaleen's division of high quality machine-made broadloom carpeting. Unlike all of our existing Pure Life and Kaleen Broadloom lines, Hook & Beam is not handmade and can be produced at a much faster rate. Two different construction types make up the Hook & Beam product line: Jacquard loomed and Circular knit.

KALEEN Broadloom is Kaleen's introductory division into the Broadloom and custom fabricated rug business. Starting with just 11 styles in 2015, Kaleen now has over 65 unique styles to choose from. With an ever-growing product line that encompasses hand tufted, hand loomed and jacquard loomed styles using 100% wool and wool synthetic blends, the Kaleen Broadloom Division has something for every customer.

Eco-friendly manufacturing, organic materials and a deep compassion for life on earth is what makes Kaleen more than just a brand - it's a lifestyle. Kaleen's manufacturing facilities are Green Energy Certified and harness electricity from the sun using solar panels and use water recycling systems for clean water.

PURE LIFE is one of the only all-natural carpets available to consumers today. From the GOTS certified dyes, all the way down to the glue, Pure Life products are all responsibly made from sustainable materials. Constructed from ethically sourced, cruelty free wool, which is a 100% renewable and biodegradable resource. So if you are looking for an eco-friendly, non-toxic and hypoallergenic carpeting to put in your home, Pure Life is the answer.

Our Passion: Tretford is high quality carpeting that is made in Germany with natural materials – for a healthy living and working environment. Our carpet's unique product features, along with its proven quality, have established a brand identity that is fueled by our passion. For more than 50 years now, we have been manufacturing our flooring – partly by hand – with Cashmere goat hair in Wesel on the Lower Rhine. In the meantime, the brand name "tretford" has evolved into a synonym for this owner-managed company; it stands for boldly colored, high-quality textile flooring with a characteristic texture.

Our Philosophy: Sparing and gentle use of natural resources along with responsible business practices shape our corporate behavior. Tretford Carpets puts ecological and social responsibility at the heart of its business. We are making strides towards sustainable manufacturing with products made exclusively of natural, recycled or biodegradable materials.

Tretford's Special Feature: Carpets by Tretford, which feature the characteristic ribbed design, are available in over 40 colors that can be combined to suit the style of your choice. Countless designs can be created and realized thanks to non-fraying materials. And since Tretford Carpets have a positive influence on the indoor climate, they are ideal for living and working environments. Our carpeting owes this beneficial effect to its main component, the exquisite top hair of the Cashmere goat with its hygroscopic properties. Like practically no other material, it can absorb moisture from the air only to release it back into the room environment as needed. Moreover, this natural raw material also bonds fine dust particles thanks to the scaly structure of goat hair. This is good news for allergy sufferers since the indoor "dust load" is many times lower than with smooth floors. And even beyond the underfoot warmth it provides, carpeting with Cashmere goat hair is also dirt-repellent, absorbs sound and can be expected to have a long service life.

Warmth,
comfort
and
luxury.

**A well-chosen area rug or stair runner
can add warmth, comfort and luxury to any room.**

Tarkett Home's *Make the Cut* Custom Rug Program combines colors and patterns that work beautifully together to offer sophistication and give an exceptional style throughout the home.

Our collection of styles are available as custom area rugs and will complement any room in your home. Just select your style, and then your size. Whether round, square or a stair runner, our patterns let you create your own unique style.

- All rugs are serged with a complementary color of yarn with attached non-skid backing.
- See your sales associate for details on how to order.

Mathews&Parlo

Trusted Flooring Supplier Since 1981

Comfort, durability, and performance. Mathews&Parlo carpet has all three thanks to our PureColor™ Fiber System. PureColor™ fiber is solution dyed. In comparison with other conventional carpets, that means better stain resistance, color fastness, and longevity. Mathews&Parlo is committed to providing the best soft surface flooring.

PureColor™ Fiber Features & Benefits

- *Inherently stain resistant and unaffected by some of the toughest chemicals*
- *Resistant to food stains, such as mustard and red beverages*
- *Superior colorfastness that won't fade*
- *Continuous filament prevents shedding*
- *Uses 32% less energy and requires 87% less water usage in manufacturing*
- *Gives off 42% less greenhouse gases*
- *Green Label Plus certified*
- *Over 50,000 sq yards in stock*

COMMERCIAL FLOORING PRODUCTS

Flooring Solutions From Around The Globe

Manufacturer & Importer. FORDOM International is a manufacturer and importer of commercial flooring products. Our commercial flooring products are the smart choice and problem solver in so many spaces.

FORDOM's Needlepunch Congress and Retail lines are durable for demanding, moderate and high-traffic areas. Both are designed for superior walk-off properties to trap and hold grit and moisture. Our selection of quality fiber bonded needle punch broadloom carpet products are available in rolls and tiles.

FORDOM's Needle Felt Justice line has a loose Berber look, designed for superior track off properties to trap and hold grit and moisture. It's ideal for moderate commercial traffic such as Places of Worship (entrance ways), Dormitory (common areas), Fitness Centers (lounges/locker rooms) and Main Street (retail).

FORDOM's Grass Carpet (Field of Dreams, Meadow, Fairway) is a strong and durable roll with a dimensionally stable backing ideally designed for high traffic areas. It's ideal for commercial outdoor decks, patios, docks, and pool areas. It's easy to clean plus stain and fade resistant.

FORDOM's Freedom/Patriot heavy-duty ribbed design broadloom is designed for superior track off properties to trap grit and moisture, to be vacuumed out rather than tracked off. The product has incredible dirt trapping ability with phenomenal fiber retention for a broadloom product. It's ideal for heavy-use commercial traffic, such as: restaurants (entrance ways), Dormitories (entrance areas), Fitness centers (entrance areas / locker rooms), Country Clubs (pro shops / outdoor sitting areas) and Commercial retail space.

Choose the carpet from our wide selection of colors and styles to meet your needs. We offer attractive sample boards and folders to help you in your decision process. Our inventory is plentiful and we provide fast and reliable delivery.

MASTER DISTRIBUTORS. Our network of Master Distributors has served the commercial flooring products industry for decades. They have a proven record with the highest level of service and exceptional quality products.

At FORDOM we utilize both FOReign and DOMestic suppliers to bring you a wide selection of quality commercial flooring products. Our products have been used with great effect and customer satisfaction in entryways, corridors, public spaces, and just about any location where the combination of warmth and durability is essential.
