

ZEROLICIOUS

Black cards are positive.

Red cards are negative

Numbered cards are their value.

Ace = 1

King = 13

Queen = 12

Jack = 11

Each player gets four cards. Please write the names of each player on the game card.

On your turn, you can pick up the **top** card from the discard pile **or** a card from the face down pile. You then discard on your turn.

The first person to get cards that equal ZERO, says “zerolicious”.

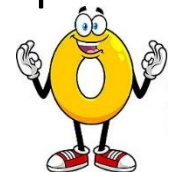

The score for each round is the sum of what is left in your hand.

The person with the score CLOSEST to ZERO after time is up or

$\sqrt{49}$ rounds wins.
