

MATHOGGLE MONYAY!! _____ is Mathtastic + IMPORTANT!!!!

Use the Mathoggle board to create number sentences. Numbers used must be adjacent(next to) or diagonal from the previous number. **You can only use a number ONCE in each sentence.** The more numbers used, the more points you receive!! Each number used is worth one point. The answer is not a point value.

Remember to follow the order of operations and use parenthesis if needed 😊

Example... $5 \times 2 = 10 =$ two points $16 \div 4 + 6 = 10 =$ three points ...Your turn!!

5	13	3	9
2	10	16	14
6	4	7	12
11	1	8	15

2 points _____ 3 points _____

4 points _____

5 points _____

6 points _____

7 points _____ 8 points _____

For this section, use three or more numbers that touch with any operations to equal the target number.

_____ = 20

_____ = 54
