

# MATHOGGLE MONYAY!!

Needs \_\_\_\_\_

Use the Mathoggle board to create number sentences. Numbers used must be adjacent(next to) or diagonal from the previous number. **You can only use a number ONCE in each sentence.** The more numbers used, the more points you receive!! Each number used is worth one point. **The answer is not a point value.** Remember to follow the order of operations and use parenthesis if needed 😊 Have FUN mathogging!!!! Love, Mrs. Thomas

**Example... 30 - 20 = 10 =two points     $18 \div 9 \times 10 = 20$  = three points**

Your turn!! GOOOOOO with your mathtastic self!!!!

3	12	7	8
6	2	10	18
4	5	20	9
14	24	30	13

2 points \_\_\_\_\_ 2 points \_\_\_\_\_

3 pts \_\_\_\_\_ 3 pts \_\_\_\_\_

4 pts \_\_\_\_\_ 4pts \_\_\_\_\_

5 pts \_\_\_\_\_

6pts \_\_\_\_\_ 7pts \_\_\_\_\_

For this section, use **three or more** numbers that touch with any operations to equal the target number.

\_\_\_\_\_ = 0

\_\_\_\_\_ = 1
