

NAMAZING ANGLES!!! _____ is grrreat!!!!

Using a straight edge to create the letters of your first name. Then, connect each letter with a straight line to the next letter. This creates more angles!!! Measure and label all the angles less than 180 you created. Write the measurements inside each angle using pen or marker. Make sure when creating your letters, you have at least 4 of each type of angle: Acute, right, and obtuse. Make sure you have at least one set of complementary, supplementary, and vertical.
