WARNING: Keep your head up. Do not butt, ram, spear, or strike an opponent with any part of this helmet or faceguard. This is a violation of football rules and may cause you to suffer severe brain or neck injury, including paralysis or death and possible injury to your opponent. Contact in football may result in Concussion/Brain injury which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea, or confusion. If you have symptoms, immediately stop and report them to your coach, trainer, and parents. Do not return to a game or contact until all symptoms are gone and you receive medical clearance. Ignoring this warning may lead to another and more serious or fatal brain injury. NO HELMET SYSTEM CAN PROTECT YOU FROM SERIOUS BRAIN AND/OR NECK INJURIES INCLUDING PARALYSIS OR DEATH. TO AVOID THESE RISKS, DO NOT ENGAGE IN THE SPORT OF FOOTBALL. TO ACHIEVE THE MOST EFFECTIVE PERFORMANCE OF A Schutt HELMET, USE ONLY SCHUTT SPORTS REPLACEMENT COMPONENTS. WARNING: Do not attach any accessories that are not supplied by and/or approved to be worn with Schutt helmets. Attachment of accessories not supplied by or recommended for Schutt helmets will void the warranty and could adversely affect the protective capabilities of the helmet. If you are unsure if an accessory is approved, please visit schuttsports.com. Due to differences in head shapes and sizes, adjustments may be needed to achieve proper fit and/or comfort. Please refer to the fitting instructions booklet included with each new Schutt helmet. Also available at schuttsports.com. Using jaw pads from suppliers other than Schutt Sports will void the warranty.

VICIS

THE NEXT LEVEL IN DESIGN, PROTECTION, AND PERFORMANCE

With athlete safety at its core, the VICIS ZERO2 sets the new standard in impact mitigation. The VICIS ZERO2 helmets outperformed all other helmets tested in the NFL and NFLPA's Annual Laboratory Testing.

// VICIS ZERO2

Laboratory tests are intended to represent impacts common in play, although results may not necessarily represent all conditions or on field performance.

VICIS

UNPRECEDENTED PERFORMANCE

VICIS
ZERO2

A TRULY MULTI-LAYERED HELMET SYSTEM

Developed by VICIS' innovative team of engineers and designers, the ZERO2 takes a revolutionary approach to offer out-of-the-box thinking for a completely reimagined helmet. The ZERO2 is more than 15% lighter than its predecessor ZERO1, and allows the athlete to dial in fit, comfort, and performance to elevate their game.

VICIS ZERO2™

01 DEFORMABLE OUTER SHELL

Flexible outer shell technology, exclusive to VICIS helmets, allows the ZERO2 to respond like no other helmet on the market. By deforming like a car bumper, impact forces are absorbed at the point of contact, before they reach the head. The result is not only groundbreaking protection, but a helmet that feels like no other.

02 VICIS RFLX 2.0

Optimized for the ZERO2, VICIS RFLX 2.0 continues to leverage buckling structures, but has evolved the design with an array of columns interconnected by thin, flexible walls. The result is greater impact performance at a lower weight, allowing VICIS to further tune impact performance in key locations.

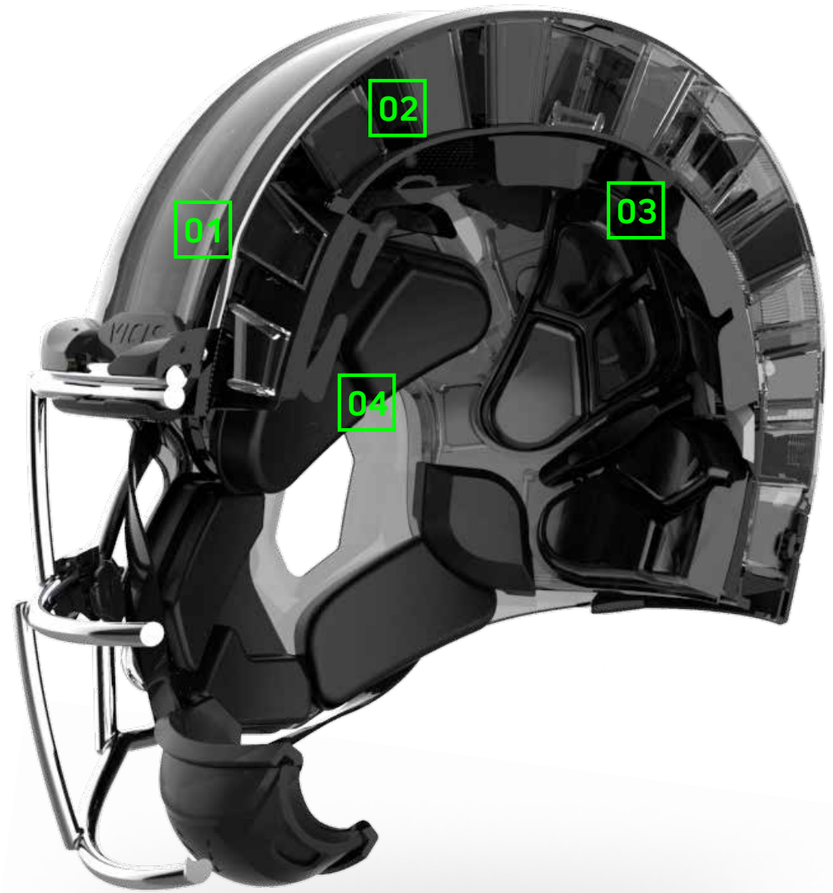

03 REINFORCED INNER SHELL

The inner shell has been engineered through data collected from hundreds of head shapes to optimize fit accuracy, maximize player comfort, and accommodate a wider range of players.

04 DLTA FIT SYSTEM

Raising the bar for personalized comfort and secure fit, the VICIS DLTA pod system is comprised of two layers: impact on the RFLX side, and comfort against the player's head. Fully interchangeable pads across 6 locations in multiple thicknesses translates to virtually unlimited customization without the need for air bladders. Updated pod materials provide upgraded comfort and improved durability.

GROUNDBREAKING NEW APPROACH

The ZERO2 features a new and innovative approach to VICIS' RFLX structure to reduce weight without compromising on performance, a streamlined new design, and an array of customization options available to each athlete.

ENHANCED FIELD OF VIEW

Optimized vertical and horizontal sightlines provide the athlete maxmium situational awareness so they can perform at an elite level.

SIGNIFICANT WEIGHT REDUCTION

The ZERO2 is more than 15% lighter than its predecessor ZERO1, and allows the athlete to dial in fit, comfort, and performance to elevate their game. Designed like no helmet before it, the ZERO2 is a combination of science, safety and sports equipment that is built for serious players.

VICIS

INTRODUCING THE ALL-NEW

ZERO2 QB™

THE LATEST EVOLUTION IN POSITION-SPECIFIC PROTECTION

The VICIS ZERO2 QB is the first-ever helmet engineered to provide position-specific protection for quarterbacks. Meticulously tested and optimized to provide unparalleled performance for the impacts quarterbacks experience.

TOP-RANKED

NOTHING LESS THAN TOP-RANKED PROTECTION

With its advanced technology and exceptional performance, the ZERO2 QB helmet provides unparalleled protection, allowing quarterbacks to perform at their best and take control on the field.

#1 Engineered with the player's safety as the utmost priority, the ZERO2 QB has been recognized as **highest ranked helmet in the 2025 NFL/NFLPA QB helmet performance rankings.**

DESIGNED FOR THE QUARTERBACK

The ZERO2 QB leverages an all-new RFLX layer that has been developed and optimized based on data provided by the NFL & NFLPA which illustrates common impact locations and impact velocities experienced by quarterbacks.

By harnessing these data points, VICIS RDI has introduced a new RFLX layer for the ZERO2 QB designed to effectively mitigate and absorb forces associated with these impact types. This new design offers enhanced protection to the quarterback's head in areas that are frequently impacted during gameplay.

ENHANCED FIELD OF VIEW

Like all VICIS helmets, the ZERO2 QB offers an industry-leading field of view, providing athletes with an enhanced level of awareness on the field. Improved vertical and horizontal sight lights means quarterbacks can see and react quicker than the traditional helmet.

VICIS

ZERO2™ QB ELITE

UNPARALLELED PERFORMANCE

The VICIS ZERO2 QB is the first helmet designed to offer position-specific protection for quarterbacks, meticulously tested and optimized to excel during the common impacts experienced by quarterbacks.

FEATURE SET INCLUDES:

- RFLX 2.0
- VICIS DLTA FIT SYSTEM
- VICIS FORM LINER
- RAPID MOUNT FACEGUARD ATTACHMENT
- TITANIUM FACEGUARD
- FUSION ELITE HARDCUP CHINCUP
- EDGE EYE SHIELD BY OAKLEY | CLEAR

ENGINEERED FOR QUARTERBACKS

The only helmet designed specifically for quarterbacks, the ZERO2 QB leverages an all-new RFLX impact layer that has been developed and optimized for hits commonly experience by quarterbacks, most notably head-to-ground.

UNMATCHED FIELD OF VIEW

Utilizes an industry-leading field-of-view, providing athletes with an enhanced level of awareness on the field, meaning quarterbacks can see more and react quicker than the traditional helmet.

QUARTER TURN ATTACHMENT SYSTEM

¼ Turn lower faceguard connection allows for a very quick removal or attachment of the ZERO2 faceguard, especially when paired with the RAPID Mount upper connection.

FUSION ELITE HARDCUP CHIN STRAP

Custom built for the VICIS ZERO2, the Fusion Elite Chincup features a deformable upper panel for improved comfort, streamlined strap routing, and shell integration without sacrificing protection.

VICIS
ZERO2 TRENCH

THE FIRST-EVER POSITION-SPECIFIC HELMET

#1

Engineered with the player's safety as the utmost priority, the ZERO2 TRENCH platform has been recognized as **highest-ranked helmet in the 2025 NFL/NFLPA Offensive/Defensive Linemen helmet performance rankings.**

Flexible outer shell technology, exclusive to VICIS helmets, allows the ZERO2 TRENCH to respond like no other helmet on the market. The ZERO2 TRENCH is desgned specifically to mitigate the lower velocity repetitve impacts seen primarily at the OL/DL positions. By deforming like a car bumper, impact forces are absorbed at the point of contact, before they reach the head. Combined with the additional offset and proprietary structure of the TRENCH, the result is improved impact mitigation for every type of hit.

▶ **WATCH THE ZERO2 TRENCH FEATURES VIDEO // CLICK OR SCAN QR CODE**

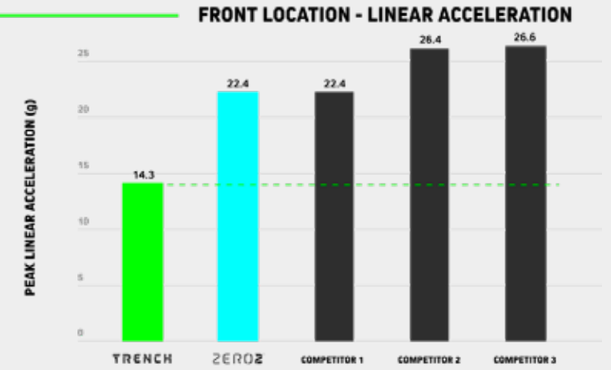

// VICIS ZERO 2 TRENCH

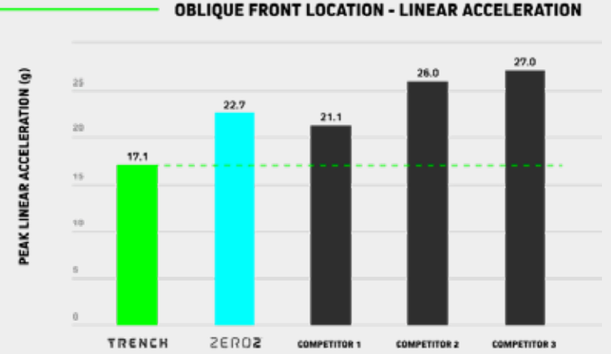

// POSITION SPECIFIC HELMET

// ZERO2 TRENCH ELITE

Ø2 TRENCH

HOW WAS IT DESIGNED?

Linemen experience more than twice as many impacts as other players, with the largest percentage of hits to the front of the helmet.[1] The majority of those impacts are low velocity between 2.1 and 4.5 m/s.[2] Based on this data, the TRENCH helmet was designed with additional offset in the frontal region, specifically tuned for low velocity impacts. To complete this optimization, VICIS leveraged the combination of a deformable outer shell and engineered impact structure.

WHAT ABOUT HIGH VELOCITY IMPACTS?

At the core of this helmet sits the ZERO2, designed from the ground up in 2021. Guided by the latest NFL/NFLPA helmet protocol, the ZERO2 was optimized for 5.5, 7.4, 9.3m/s.

VICIS

0Z TRENCH™

POSITION-SPECIFIC DESIGN

The TRENCH builds upon the game-changing ZERO2 helmet platform, utilizing a soft deformable shell specifically designed to better protect on impacts that occur play after play.

FEATURE SET INCLUDES:

- RFLX 2.0
- VICIS DLTA FIT SYSTEM
- VICIS FORM LINER
- RAPID MOUNT FACEGUARD ATTACHMENT
- CARBON STEEL FACEGUARD
- FUSION HARDCUP CHIN STRAP

HELMET RATING
5 ★★★★★

TOP-RANKED
BY NFL & NFLPA LAB TESTING

PRICING // MSRP $779.99
All VICIS shells carry a **10-year NAERA-certified lifespan warranty.**

POSITION-SPECIFIC HELMET

The game's first position-specific helmet. Designed for Linemen, the additional offset of the TRENCH helmet in the front and upper side is designed to mitigate repetitive low velocity impacts (2-4 m/s).

EXCLUSIVE NEW FACEGUARD OPTION

Introducing the **SO-215**, a new faceguard design available excusively for the ZERO2 TRENCH. The SO-215 offers the same optimized vertical and horizontal sightlines to provide the athlete maxmium situational awareness.

HOW WAS TRENCH OPTIMIZED?

Using the same linear impact ram found in the NFL/NFLPA lab, VICIS completed testing at the front and oblique front locations, focusing on reducing acceleration at low velocity impacts. The ZERO2 TRENCH **outperformed every other helmet** tested in the NFL/NFLPA OL/DL list.

VICIS ZERO2

HELMET FITTING GUIDE

1 Familiarize yourself with the different fit zones in the helmet – Top/Sides/Back/Occipital/Stabilizer Pads/Form Liner (Varsity Only)

2 **Front** – The front pad is not a fit adjustable item in the helmet.

3 **Test** – Fit the helmet on the athlete's head. Note the starting point "out of the box" fit is Occipital - 0.625", Top/Side/Rear - 0.50", Occipital Form Liner* installed.

4 **Rear** – If the helmet is too loose front to back, then adjust the rear two DLTA Pods by exchanging to thicker pod options to snug up the fit.

5 **Top** – If the helmet sits too high, then move the athlete to the next size up in the helmet.

6 **Top** – If the helmet sits too low, then adjust the top DLTA Pod for optimal brow height (front edge of helmet should be 1" above the brow).

7 **Sides** – If the helmet is too loose side to side, then adjust the side two DLTA Pods by exchanging to thicker pods to snug up the fit.

8 **Occipital** – If the helmet is too loose or gapped at the occipital, then adjust the occipital DLTA Pods by exchanging to a smaller or larger size.

9 **Occipital** – If the helmet is too tight at the occipital, then remove the form liner* behind the occipital DLTA Pod.

10 **Stabilizer Pad** – Adjust the stabilizer pads to desired comfort level by exchanging to thicker or thinner pads, creating just enough pressure to compress the cheeks.

11 **Fit** – The helmet should be snug but not uncomfortable. New parts will conform to the athlete's head shape during the first few uses.

12 **Chin Strap** – Adjust the chin strap upper, then lower, lengths. When upper length set, cut strap 1" from top of buckle and tuck remaining length into shell slot.

DLTA POD INSTALLATION & REMOVAL TIPS:

INSTALL

- Fold pod in half along base axis.
- Align the point of the snap post into the matching triangular hole in inner shell.
- Push down with thumb or knuckle in center of pod while helmet is on a solid surface.
- Listen for audible snap.

REMOVAL

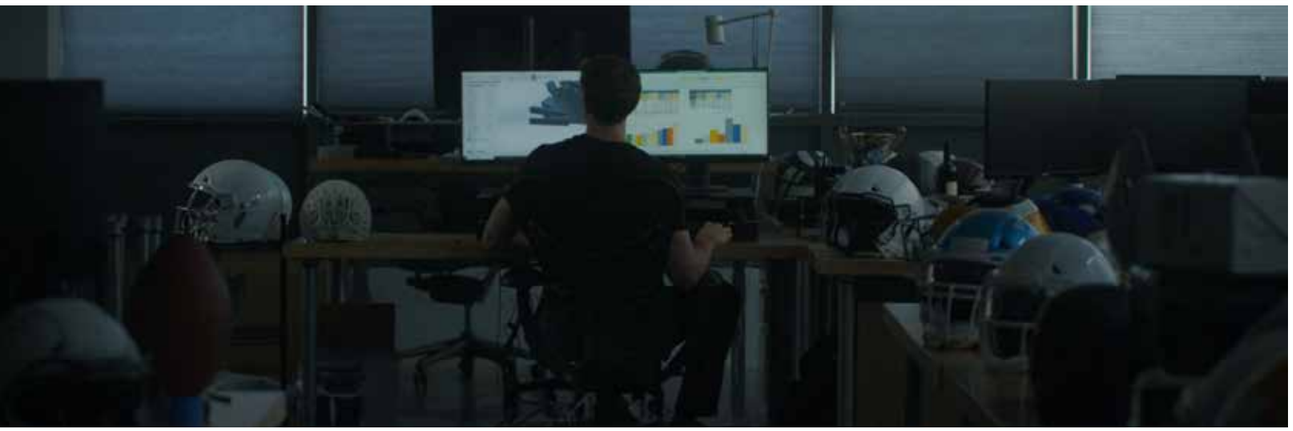

- Slide finger under pod base as far as possible (longest side).
- Pry base up and away from inner shell.

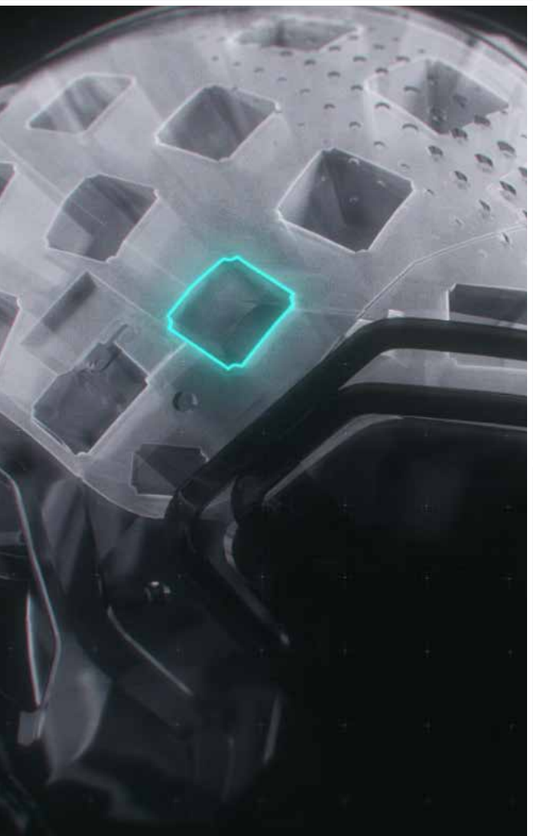

VICIS

ZERO2 MATRIX ID

PARADIGM-SHIFTING PROTECTION

The MATRIX system is a microfilament structure, which is a replacement to the DLTA fit system for the MATRIX helmet.

MATRIX provides ultimate flexibility in the fitting process without having to wait for a custom manufactured helmet. By providing multiple unique fit contours per location and adjustable comfort top layers, the MATRIX pods are ready for gameplay out of the box. This allows for immediate fit feedback from players that can be adjusted at any time.

Similar to DLTA Pods, MATRIX Pods deliver customized comfort and a secure fit without air bladders. This is accomplished by unique biofidelic contoured pads which elevates the locked-in fit of the ZERO2 MATRIX.

ADDITIONAL FEATURES TO ELEVATE YOUR GAME

FUSION ELITE HARDCUP CHIN STRAP

Custom built for the VICIS ZERO2, the Fusion Elite Chin Strap features a deformable upper panel for improved comfort, streamlined strap routing, and shell integration without sacrificing protection.

EDGE SHIELD by Oakley

Designed exclusively for the ZERO2 and engineered for optimal vision, the EDGE Shield offers players enhanced safety and performance by providing the sharpest vision with minimum distortion.

TITANIUM FACEGUARD

All-new faceguards built exclusively for the ZERO2, available in both titanium and carbon steel. Titanium faceguards are 60% lighter than the carbon steel on the standard ZERO2.

QUARTER TURN

¼ Turn lower faceguard connection allows for a very quick removal or attachment of the ZERO2 faceguard especially when paired with the RAPID Mount upper connection (faceguard removed in as fast as 10 seconds).

VICIS

EDGE SHIELD BY OAKLEY

ELEVATED ON-FIELD VISIBILITY

Optimized vertical and horizontal sightlines provide the athlete maxmium situational awareness so they can perform at an elite level. With a shape designed exclusively for the ZERO2, the EDGE Shield offers players enhanced performance by providing the sharpest vision with minimum distortion.

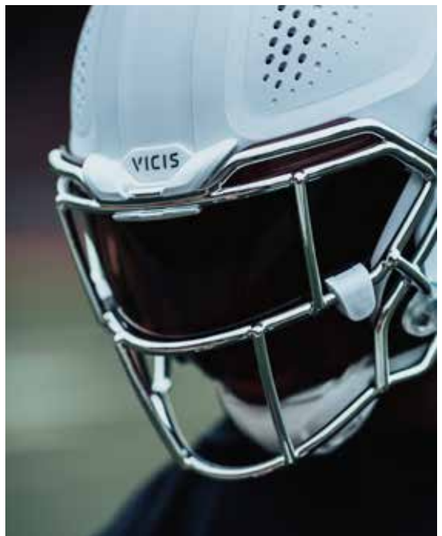

Leveraging new manufacturing tools and software, including Freeform High Definition Optics® (HDO) and PRIZM™ Lens Technology, the EDGE Shield lens was exclusively engineered for the ZERO2, allowing Oakley to create an optically correct shield to match the unique shape of ZERO2 faceguards and the ZERO2's wide field of view.

	LIGHT TRANSMISSION	LIGHT CONDITIONS	CONTRAST	BASE LENS COLOR

$299.99

ARC_V1 SHOULDER PADS ARCH SIZERS $10.49

ARC_V1 Sizers identify a player’s ideal shoulder pad cut by testing arch fit.
Perfect for coaches ensuring a precise shoulder pad model match.

* *The choice of **arch style** between Skill, All-Purpose, and Trench should be dependent on the fit of the arch across the top of the shoulder front to back.*
* *The choice of **arch size** should be dependent on the width of the shoulders across the back per the fitting guide.*

INTRODUCING

ARC_V1 ELITE

THE GAME'S NEXT MAJOR INNOVATION

The game's next major innovation has arrived, introducing the all-new ARC_V1 Elite Shoulder Pads from VICIS. Designed without compromise, the ARC_V1 Elite shoulder pads are constructed with state-of-the-art CURV™ arch material and a fully customizable modular cushioning system for maximum protection and comfort.

- Lightweight base and external arches constructed from woven thermoplastic composite
- Modular, customizable on site cushioning system with air flow channels and adjustable length cap
- Customizable axis fit system with dual-density impact and comfort foam in critical impact areas
- Shift belt system for on-the-fly micro adjustment
- Three position-specific arch designs with pro-motion technology
- Elite back plate included with Skill and All-Purpose models
- Moisture-impervious design

WATCH THE LAUNCH VIDEO

WATCH THE HOW-TO FIT VIDEOS

The ARC_V1 Elite is a highly specialized and customizable pad designed for the most discerning athletes. This product requires special fitting procedures that can be found at https://vicis.com/blogs/arc_v1-elite. The ARC_V1 Elite comes with a special tool kit for making those adjustments.

ARC_V1 ELITE

ENHANCED UPDATES FOR 2026

TECHNOLOGY

LIGHTWEIGHT WOVEN THERMOPLASTIC COMPOSITE TACTICAL ARCH

The VICIS ARC_V1 leverages CURV™, a self-reinforced thermoplastic composite that provides superior impact severity reduction and increased rigidity when compared to conventional plastics. CURV's™ lightweight strength and durability makes it the perfect material choice for athletes looking for top-level protection and improved on-field perfomance.

EXTERNAL ARCH LOAD MANAGEMENT SYSTEM

PRO MOTION INDEPENDENT ARCHES FOR ENHANCED RANGE OF MOTION

ADJUSTABLE LENGTH CAPS

AXIS FIT SYSTEM

- INTERCHANGEABLE LOW PROFILE AIR FLOW CHANNEL CUSHIONING
- CUSTOMIZABLE AC FIT AND MID PAD CHANNEL SYSTEM

All athletes are built differently, which is why VICIS ARC_V1 features a modular, fully customizable cushion system to ensure all athletes are protected with a fully personalized fit.

CUSTOM LENGTH SHIFT BELTS

The VICIS ARC_V1 features an easy-to-use ratchet strap for quick adjustments so athletes can stay comfortable and adjust for a locked-in fit. **See the fit video for instructions.**

VICIS

ARC_V1 YOUTH

THE NEXT GENERATION OF YOUTH SHOULDER PADS
BY THE INDUSTRY LEADER IN PERFORMANCE

UPDATED CUSHIONING SYSTEM FOR 2026

EXO SHIELD™ CHEST & STERNUM PROTECTION SYSTEM

Engineered from HDPE (High-Density Polyethylene) with full coverage chest plate and an integrated sternum protector, this shoulder pad ensures the ultimate in player protection.

ADVANCED CUSHIONING TECHNOLOGY

Breathable Dual-Density Performance cushioning absorbs impact forces while helping to keep players cool and comfortable.

BELT & BUCKLE SYSTEM

Industry-standard belt-and-buckle system allows for easily locking in the fit and maximizes the performance of the arch.

DURABLE & IMPACT-RESISTANT

HDPE (High-Density Polyethylene) is an industrial-grade polymer that makes shoulder pads both durable and protective against hard tackles and hits. HDPE's high impact strength is crucial for absorbing the collision forces during gameplay, while its resistance to weather ensures the pads maintain their integrity in any conditions.

EXO SHIELD

WIDER NECK OPENING

Increased range of motion and allows for better pre-snap, heads-up positioning.

BACK PLATE INCLUDED

DESIGNED WITHOUT COMPROMISE

Designed for young athletes who demand the best, the VICIS ARC_V1 Youth Shoulder Pads combine cutting-edge protection with superior comfort. Featuring the EXO Shield™ Chest & Sternum Protection System, and an advanced cushioning technology, the ARC_V1 Youth offers enhanced protection and lightweight support – keeping young players cool and agile on the field.

- EXO Shield™ Chest & Sternum Protection System
- Rigid HDPE Arch Material
- Advanced Cushioning Technology
- Lightweight (3.25 lbs)
- Quick-Release Safety System
- Enhanced Range Of Motion
- Back Plate Included
- Belt-and-Buckle System
- All-Purpose Arch Design
- Sizes XS-XL

SCHUTT
VARSITY HELMETS

F7PRO

Engineered to meet the uncompromising demands of today's elite athletes, the F7 Pro delivers the perfect balance of size, weight, performance, and functionality. The undeniable next generation of the game's most iconic helmet.

F7AiR

The Schutt F7 AiR carries forward the popular look of the F7 Pro, built for every level of play. With the onboard AiR-Lock System, sleek rear diffuser, Tektonic Mohawk, and Virginia Tech 5–Star safety, it delivers F7 Pro-inspired style with advanced fit and protection.

Vengeance Pro LTD II

Featuring a low-profile shell and an inflatable SUREFIT air liner, The Vengance PRO LTD II provides a wrap-around fit that evenly distributes pressure and weight for maximum comfort. Its TPU Cushioning is engineered to resist compression sets, maintaining elite protection even after thousands of impacts.

F7PRO

The F7 Pro is the ultimate fusion of size, weight, and high-performance functionality. It's more than an evolution—it's the next generation of the game's most iconic helmet.

DESIGNED & BUILT FOR THE ELITE.

KEY FEATURES

01
TEKTONIC MOHAWK

The Tektonic Mohawk combines elite style with integrated technology that neutralizes impact. This reactionary system reduces force, ensuring peak performance and protection on every play.

02
MID-POINT HOOK UP

Mid-point hook up with ANKR Locks (Standard) is protected behind the guard, significantly reducing impact friction and preventing premature wear during high-intensity play.

03
INTEGRATED STABILIZER

The Stabilizer system uses flexible technology to frame the cheekbone, securing the helmet for a locked-in feel. This contoured design provides superior jaw support and uncompromising comfort.

04
SWITCH VISOR

Upgrade your game with the Switch Visor by Oakley™, designed for easy installation and maximum performance. No clips, no tools, no hassle - just a secure fit in seconds.

05
DNA CORE

The DNA CORE features a 3D-printed lattice precision-engineered to absorb impact. By minimizing force transfer, it provides athletes with unrivaled protection and confidence on every snap.

06
OCTO-FIT

The OCTO-Fit system features interchangeable, dual-density pods that use active fit technology to contour to your head's unique shape, ensuring a customized fit and superior comfort for every player.

07
ONBOARD AiR-LOCK SYSTEM

Introducing the first helmet with integrated AiR Technology. The onboard AiR-Lock system secures the back of the head for a custom, personalized fit that athletes can adjust instantly without a handheld pump.

08
DIFFUSER

The automotive-inspired rear diffuser blends iconic styling with function. Its sculpted design allows for a lower, more secure fit, enhancing both comfort and protective coverage.

KEY STANDARD FEATURES

01

VIRGINIA TECH 5 STAR

The F7 AiR earns the prestigious 5–Star Virginia Tech Helmet Rating, the highest possible safety rating from their independent testing lab.

02

ONBOARD AiR-LOCK SYSTEM

Full-wrap coverage locks the helmet in at the back and sides for a secure, personalized fit athletes can adjust on the fly (no handheld pump required).

03

DIFFUSER

Sleek design lowers the helmet on the back of the head, improving comfort and fit.

04

TEKTONIC MOHAWK

The integrated reactionary technology reduces impact severity helping players perform at their best on every play.

05

RFLX-S IMPACT LAYER

The F7 AiR features the RFLX-S impact layer, which absorbs and deflects impact forces, all while increasing athlete fit and comfort.

06

FUSION HARDCUP

Durable, protective and is engineered to lock your helmet in place, ensuring maximum stability exactly when you need it most.

07

Oakley™ Switch Visor

OakleyTM Switch Visor compatible with Switch Clip pre-installed.

VIRGINIA TECH
HELMET RATING
5 ★★★★★

The Schutt F7 AiR recorded a top rating with a Five Star Rating and an extremely high performing score of **0.92**.

F7AiR ELITE

OAKLEY | Switch Visor INCLUDED

The F7 AiR Elite Includes all Varsity standard features above, plus the following upgrades: Exclusive Oakley visor, titanium facemask, ANKR Locks, and quarter-turn screws.

- **Exclusive Oakley™ Switch Visor (Clear):** Developed specifically for the F7 helmet platform and gives edge-to-edge protection and performance along with toolless installation.
- **ANKR Locks:** Mid-point hookup locks in chinstrap, located to reduce friction on impact.
- **Quarter-Turn Safety Hardware:** Fast faceguard attachment/removal with two turns and a twist.
- **Titanium Pro-Style Faceguard:** 60% lighter than carbon steel.
- **Fusion Elite Hardcup Chin Strap:** Elevated comfort and protection.

VARSITY HELMET FEATURES & FITTING GUIDE

INFLATABLE

Measure the player's head as shown, 1" above the eyebrows around the widest part of the head, using the chart on helmet pages for size guideline.

Lubricate the pump needle generously and insert needle as shown. Do not force the needle into the port; doing so may puncture the liner's opposite wall.

Begin with bottom inflation port on back of helmet. Perform 1-3 pumps. Helmet should be snug against player's head but not overly tight. Excess air is released with valve.

When finished, repeat for top inflation port. Proper inflation will usually require 0-2 pumps, but that may vary.

Helmet's front edge and nose bumper should be approximately 1" above the player's eyebrows.

Attach chin strap to the helmet underneath the faceguard, never above it. Tighten chin strap to be snug and centered on the chin.

Jaw pads should be snug against the player's face, flush with his jaw, without pushing too forcefully into his cheeks.

The helmet should fit snugly, without being too tight. There should be no independent movement of the helmet.

NON-INFLATABLE

Measure the player's head as shown, 1" above the eyebrows around the widest part of the head, using the chart on helmet pages for size guideline.

Attach chin strap to the helmet underneath the faceguard, never above it. Tighten chin strap to be snug and centered on the chin.

Jaw pads should be snug against the player's face, flush with his jaw, without pushing too forcefully into his cheeks.

The helmet should fit snugly, without being too tight. There should be no independent movement of the helmet.

VIRGINIA TECH.
HELMET RATING
5 ★★★★★

SCHUTT
YOUTH HELMETS

F7 AiR YOUTH

The Schutt F7 AiR Youth brings the iconic F7 Pro design to young athletes in an extremely lightweight build. **Meeting the new NOCSAE ND006 youth standards** and a **5-Star safety rating in the Virginia Tech Youth Helmet Ratings**, it pairs the best performance-to-weight ratio for elite-level protection without extra weight.

F7 AiR ELITE YOUTH

The Elite model takes the F7 AiR Youth platform to the highest level of performance. It features the same **Virginia Tech 5-Star rated** shell and stabilization technology as the standard model, upgraded with a titanium facemask and an Oakley visor for maximum weight savings and superior field vision.

VICIS | schutt

RECONDITIONING

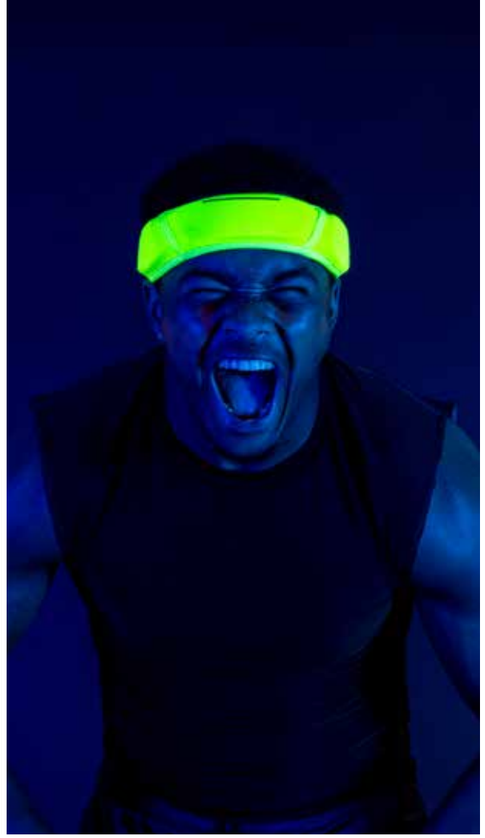

GET STARTED WITH SCHUTT RECONDITIONING & RECERTIFICATION

As the **only OEM member of NAERA licensed by NOCSAE** we meet and exceed industry standards. All helmets are tagged with RFID tracking labels to record important information and allow easy identification throughout the process. All interior parts and faceguards are removed allowing better inspection, cleaning and sanitizing. Internal parts are reinstalled in the same helmet and rejected parts are replaced with new OEM parts. Shells are inspected, cleaned, sanitized and prepped for finish. Paint or polish. New recertification, NOCSAE, warning, size and initial season labels installed.

- Simple and Transparent
- Credit for Rejected Helmets Towards New Purchases
- New Vapor Blasting Process
- Faceguard Recoating and Certification
- Online Order Management
- Online Tracking
- All Work Performed 100% Domestically in Salem, IL
- Simple Order Entry for Recon and New Equipment
- Automated Order Acknowledgements
- Access to Order History
- Inbound Tracking
- Outbound Tracking
- Real Time Status Updates throughout Process
- Inventory Reports
- Reconditioning History
- Parts Replacement Reports
- Standard & Premium Options Available

For individual helmet reconditioning, visit schuttsports.com/pages/reconditioning

SHOULDER PAD FITTING GUIDE

IDENTIFY

Identify the player's position and choose the appropriate Schutt shoulder pad model.

MEASURE SHOULDERS

Measure the width of the shoulder span, from the right to left tips of the humerus, using a cloth measuring tape.

MEASURE CHEST

Using the cloth measuring tape, wrap around the player's torso to measure the player's chest circumference.

PUT ON PADS

Determine the proper size of shoulder pad (from the measurements) and place them onto the player's shoulders.

SECURE STRAPS

Buckle the belts then connect any straps that the shoulder pad uses. Ensure a good, tight fit in the chest and back areas.

CHECK FIT

Ensure the shoulder pads are providing proper front coverage by confirming the pads cover the sternum, as well as the front upper shoulders.

ENSURE FIT | FRONT

Check the collar and neck area to ensure there is no pinching and the fit is not too tight.

ENSURE FIT | BACK

For proper coverage in the back, confirm the pads are covering the scapula and rhomboid areas. The player should have maximum range of arm motion.
