@New Foundations

SO.... WHY CONSIDER NEXT GENERATION...

We wholeheartedly believe that it is imperative to offer a home-from-home environment for the children, encouraging their interaction and social skills through stimulated play. The first few years of a child's life are very important and we aim to offer them the best start possible by setting firm foundations in their early childcare and education.

Our Director Jo, opened our sister setting, New Foundations in 2003. We are proud to have over 20 years of experience in offering high quality childcare to our local community.

Operating from a converted popular and community based Doctors Surgery. Our Nursery was renovated into a family run and family focused Day Nursery. We are smaller than most Nurseries, offering just 44 places per day for children from 6 months until they leave for Reception. We aim to provide a warm and caring atmosphere by a constant familiar core of professional staff where children will feel safe, happy and valued.
