

Whitening for Life

We feel that every patient in our practice deserves to have a smile they can be proud of. We are excited to offer our patients Whitening for Life.

When you come into our office for your preventive examination, x-rays and hygiene maintenance, we will provide you with one set of trays and materials for a one time enrollment fee. Then at each recommended preventive visit, we will give you two complimentary bleaching gel syringes. This ensures that you will be able to keep your teeth bright and beautiful for life.

All we ask in return is:

- **You keep your recommended hygiene appointment current.** Your long term dental health is as important to us as it is to you. Keeping these visits regular visits helps keep your teeth as healthy as possible.
- **Provide at least 48 hours notice** if you need to cancel or reschedule.
- **All necessary treatment must be completed before bleaching is dispensed.** This is including but not limited to fillings, crowns, or any other restorative types, root canal etc.
- **Contract is Void if:** Patient is no longer active at our practice. If patient goes longer then 9 months without regular hygiene visit. If patient refuses recommended treatment. If for any reason Dr. Bal is no longer the practicing dentist at the office.

*If you would like to participate in bleaching but do not want "Whitening for Life" you can purchase bleaching gel syringes. (Cost subject to change)

*If you lose or break the custom trays we made for you replacement trays can be re-made. (Cost subject to change)

I understand the "Whitening for Life" requirements, and would like to enroll
