JANUARY 2026

GOALS FOR 2026: GOING FARTHER TOGETHER

At Waterbury OIC, we believe that meaningful, lasting change does not happen in isolation—it happens through strong partnerships rooted in trust, shared purpose, and a commitment to community. As we continue our work to support education, workforce development, and economic opportunity, we are actively seeking partnerships with community-based organizations across Waterbury.

Waterbury is rich with organizations doing important work every day—supporting families, youth, job seekers, entrepreneurs, and neighbors in need. By coming together, we can align our strengths, expand access to resources, and create more seamless pathways for the individuals and families we collectively serve. Whether through shared programming, referrals, co-hosted events, training collaborations, or strategic planning, partnerships allow us to go farther than any one organization can alone.

Waterbury OIC is especially interested in collaborating with organizations that share our values of equity, empowerment, and community-driven solutions. We welcome partnerships with nonprofits, faith-based organizations, schools, small businesses, and grassroots groups who are committed to helping residents build skills, secure meaningful employment, and achieve long-term stability. Please reach out at woicbusinessdept@outlook.com.
