GENERAL INFORMATION

- Roof Pitch Fixed 20°
- 24mm Glazing in all Lantern Roofs
- All Lantern Roofs are supplied with Aluminium External Glazing Bar Cappings and Castings
- All Lantern Roofs are supplied with PVC-U Internal Glazing Bar Cappings
- The Lantern Roof is supplied without any Finial or Decorative Crestings
- Lead time for orders: 5 Days
- Maximum Size for Contemporary Roof: Length L=3000mm / Width W=1500mm**
- Maximum Size for 2-Way Lantern Roof: Length L=6000mm / Width W=1500mm**
- Maximum Size for 3-Way Lantern Roof: Length L=6000mm / Width W=3000mm**
- Suggested timber support to be 100mm wide by 150mm high (Not supplied with Lantern Roof)
- For optimum aesthetic appeal use Width W x 1.5/2/2.5 etc to obtain Length L.
(e.g 1400mm W x 1.5 = L 2100mm)

**Maximum Sizes Shown refer to External Face of Timber Support

The Stratus Lantern roof has been specifically designed to be fastened down to a structurally supportive upstand in a flat roof situation. It is the sole responsibility of the installing company to make sure the supporting superstructure is designed to resist the lateral loads imposed by the Stratus Lantern.

We reserve the right to alter specifications and descriptions without prior notice as part of our policy of continuous development. E&OE.
