

**Trees, there is life. This tree below I found in Irvine Park. The gap made no difference to its living, it survived no matter what. It had pain, it had fire and maybe a lightning strike. When I saw it and both sides still living it reminded me we will get through what we see as a fire or lightning strike. That gap is about 2 feet! Many walk by this tree and do not see the miracle, let us be aware of the miracle.**
