2020 forced the band to think outside of the box and evaluate their musical path. The band decided to redefine their sound and independently write and produce their own music, and also rebuilding the team surrounding them.

The band is currently based in Tambourine studios in Malmö, where they are currently and continuously working on new music together with talented young producers such as Simon Peyron and Lucas Gullbing.

Louis Pax has released two singles in 2021 and intends to release six new singles during 2022

In July last year they released the single Motion. An energetic and refreshing pop-rock song with classic rock instrumentation, which gained attention from the bicycle company, Stålhästen who used the song in their commercial and as their slogan - "*Stay in Motion*".

Motion also gained a lot of promising reviews from blogs and was added to several popular playlists, such as AlexrainbirdMusic with over 1M followers on Youtube. Motion ended up on their Good Vibes playlist with above 504k streams.

Bad Things was another a successful release in October 2021 and introduced the band to a broader international following, particularly in The Phillippines and USA.

Despite heavy covid restrictions, Louis Pax also started touring again last year, with mentionable gigs in Denmark at Roskilde's Gimle and the Jyllinge Festival with a 2000 person audience. The band now hopes for plenty more live performances to spread their music again!

Upcoming tracks, "Spanish Rain", will be released February 04th, 2022. And "Get You Off My Mind" is scheduled for April 01st.
