

Safe Plyometric Jumping Boxes

Set of 4pcs 91x67cm

The Pangu Foam Plyometric Boxes offer a high level of safety for plyometric jumping. Constructed from the highest quality sponge foam and then wrapped in heavy-duty vinyl, these boxes are stable and firm. This means that even the most timid athlete can give these plyometric boxes a go, without the fear of injury present in wooden plyo boxes. With velcro straps for stacking, the Pangu Plyometric Boxes are constructed to offer a versatile yet practical option to any space. With four steps included, you can stack these boxes in a number of ways to ensure all athletes are challenged.
