

Free Beats Policy

Only download the Free Beats for use in non-commercial and non-profitable projects. By offering free beats, you've been given the opportunity to 'Try-Before-You-Buy.' Use these to write, record and experiment with your music. You are allowed to post the final result on your social channels or sites like YouTube or Soundcloud to see if your song is worth investing in a license. The Free versions are 'tagged' with a voice tag for security reasons. By purchasing a license you will receive an untagged version regardless of the license you decide to purchase.

You are not allowed to download Free Beats for:

- Use on mixtapes or albums
- Use in Radio- and TV-Broadcasting or any airplay possibility
- Use in live-performances or any other public use
- Any profitable projects
