#### About D-Art Collection, Inc.

D-Art Collection, Inc. was started in 1999 as a distributor for our own Indonesia furniture factory, PT. Jati Mas Indonesia (which was founded in 1980). We specialize in real wood and handmade furniture and home decor. Over the years, we have proven to our customers with high-quality products in good prices and on time delivery. We have many varieties of the materials: real wood (teak, mahogany, acacia), rattan/wicker, banana leaf, seagrass, woven resin, metals (aluminum, steel, wrought iron) .

Striving to have the quality improved continuously, D-Art Collection, Inc. has finally been trusted by couple major furniture buyers that share the same objective, which is quality oriented products in affordable costs. To have control directly in Quality Assurance on the production level has played crucial roles in bringing competitiveness while maintaining affordable costs.

In the last couple years, we have been building our local warehouse inventories. We created/modified some classic styles that now can be shipped in the small to medium size boxes. Therefore, we are capable to provide either direct shipment from our own factory in Indonesia or from California warehouse, as well as drop ship business. We can ship directly to your customers from our doors.

We welcome any designs of custom furniture. Our designer team has been working collaboratively with hospitality designers over the years to create high end furniture lines. Our factory team understands deeply about the details needed in constructing strong and beautiful products. We hope to gain your trust in building a long term business relationship.
