

FACTORY PROFILE

PT. JATI MAS INDONESIA

ABOUT US

PT. JATI MAS INDONESIA (PT JMI) is located in Sentul, Singosari / Pasuruan, East Java, Indonesia. It is about 1.5 hours drive from Surabaya International Airport. The factory was founded in 1980 and along with times, it has been managed according to the industry standard export international. In 1999, we opened our US office under company's name D-Art Collection, Inc., located in Los Angeles, California, USA.

Our markets range from Asia to Europe and USA, with USA being the major export destination for us. The steady order from major furniture industries to our company is a testimonial of our proven well accepted products by the market, sound quality assurance, and on-time delivery. We strive to do all of these by strongly believe in work ethics.

We welcome any custom projects and we always focus on the on-time delivery to meet the deadline.

RAW MATERIALS

In our production, we emphasize the use of the resources of Indonesia.

The common SOLID WOODS, main timbers available in Indonesia, are TEAK and MAHOGANY. Indonesia is quite unique in the world as it has over 2 million hectares of teak plantation and almost 1 million hectare of mahogany plantation.

We also care for the environment by sourcing our materials from the Indonesian legal authorities who has been managing with regenerated plantation.

Sourcing our wood legally is not only reducing the emission, but also is increasing the well being of our local community.

WORK PROCESS

Our productions are tailored to meet each buyer's requests and construction preferences. We have our own sawmill to ensure the efficiency and preciseness of materials needed. This can create savings that we will pass to our clients. We use our own kiln-dry chambers to ensure the dryness according to standard export.

We also have our own carvers and weavers who can combine their hand-carve/weave skills with our machine-made quality.

For any custom designs or fresh ideas, our design team is available to help our clients in realizing their goals within any given projects.

We are confident that with our experience, expertise, and resources, we can satisfy your project needs.

Our sales and administration staffs put an emphasis on client services. We leverage all our resources to get the orders out on time and to maximize client satisfaction.

We use only non-toxic, child friendly finishes.

Your furniture will also be carefully checked by our quality control team who is familiar with standard export international quality.

We have our own sawmill and 8 kiln-dry chambers
