PROGRAM

CUSTOM CRAFTSMANSHIP

**BUILT TO YOUR
SPECIFICATIONS**

PRIVATE LABEL • OEM •
CUSTOM MANUFACTURING

OUR PROCESS

01

01 — Consultation

We begin by understanding each client's vision, specifications, and project goals. Our team works closely with buyers to ensure every requirement. From design concept to material selection, it's all clearly defined before production begins.

02

02 — Design & Material Planning

Using premium Indonesian resources such as teak and mahogany, our design team develops plans that balance aesthetics, durability, and functionality. All materials are legally sourced from regulated plantations, supporting sustainability and local communities.

03

03 — Costing & Production Preparation

With our own sawmill and kiln-dry chambers, we precisely prepare materials to international export standards. This allows us to control quality, reduce waste, and provide efficient pricing without compromising craftsmanship.

04

04 — Manufacturing & Quality Assurance

Our skilled artisans combine hand-carving expertise with modern machinery to produce consistent, high-quality furniture. Each piece undergoes strict quality control inspection to ensure durability, refined finishes, and reliable on-time delivery.

**PRECISION CRAFTSMANSHIP • RELIABLE
DELIVERY • GLOBAL STANDARDS**

GLOBAL TRUST
