

Cleaning and Cleaning Equipment

The Villa will be cleaned throughout before your arrival. This includes the outdoor terrace area and the pool.

Please note: sand carries in the breeze on Lanzarote, so if you see small amounts of sand at the bottom of the pool it is absolutely normal and nothing to be concerned about. Our excellent cleaning team maintain the pool and regularly remove excess sand.

Cleaning equipment, including a mop, vacuum cleaner, dustpan and brush, and cloths, can be found in the Villa. Everything is stored in the Utility room. We request that you please keep the Villa tidy and brush / mop / vacuum any items that get onto the floors during your stay.

Request

Upon your departure, we would really appreciate it if you can strip all of the beds and pile all of the linen, together with all towels, just inside the villa near the front door. This helps our Cleaning team when they visit to prepare the Villa for the next guests.
