

Games Room

The Games Room contains Table Tennis, Pool Table and Table Football.

Pool Table

Pool cues, balls, triangle, and chalk should all be found in the proximity of the table itself. There is a rack on the wall for Pool cues, so while playing please use the rack to store any that you aren't using.

We would appreciate your help by keeping all items near to the Pool Table, as those pesky chalks are quite easy to misplace!

Table Tennis

Bats and balls are usually left on the table. There are spares in the drawers of the sideboard within the games room.

Table Football

There should be a ball either on the table itself or in the tray to the side where the ball goes after scoring a goal. There should be a spare in the sideboard.

We appreciate your help in looking after all of the balls and putting everything back ready for the next guests to enjoy.

Sound system

There is a good sound system in the Games Room to get some music on while you're playing. It has a Radio, will accept CDs, and you can also connect devices (phones, tablets) using a USB cable.
