

MPS COUNCIL DECISION 13 JUNE 2017

- 1. Council gives in principle support to the proposal to widen the intersection at Truemans Road and Point Nepean Road.**
- 2. Council gives in principle support to the upgrade of the existing arterial road freeway extension [between Jetty and Boneo Roads] to freeway standards.**
- 3. Council supports the development of a proposal to address safety and congestion improvements at the freeway terminal at Jetty Road.**
- 4. Council requests that the existing Public Acquisition Overlay for the Mornington Peninsula Freeway reserve extension between Boneo Road and Melbourne Road be investigated for removal from the Mornington Peninsula Planning Scheme.**
- 5. Council will not support a reclassification of Point Nepean Road [to a local road], as it would remain a through road with heavy traffic despite any new or upgraded inland road construction.**
- 6. Council is concerned about the potential environmental impacts of a freeway extension through the Tootgarook Wetland and requests further investigation be undertaken by VicRoads to explore viable alternatives.**
- 7. A letter be written to VicRoads outlining the above to make clear Council's position in relation to the Point Nepean Road Study.**
