## ***CannPowerment Voluntary Self-Recall — Peach Elixir ButACake 5mg***

### **FOR IMMEDIATE RELEASE**

*CannPowerment (License M000146) is voluntarily recalling specific lots of its **Peach Elixir ButACake 5mg** product, out of an abundance of caution, following reports of potential packaging structural compromise.*

*Upon learning of the concern, CannPowerment immediately initiated an internal review and is cooperating fully with the New Jersey Cannabis Regulatory Commission while the packaging related to the root cause is determined. To date, no adverse events from any consumers have been reported.*

### **Affected METRC package tags — Peach Elixir ButACake 5mg:**

- 1A4110300009AB1000000598
- 1A4110300009AB1000000600
- 1A4110300009AB1000000866
- 1A4110300009AB1000000867
- 1A4110300009AB1000000869

*Consumers and retailers in possession of affected product should retain it in its original packaging and contact CannPowerment at [cannpowerment@gmail.com](mailto:cannpowerment@gmail.com) or their point of purchase for further instructions.*

*As a manufacturer, our responsibility does not end at production — it follows every product to the shelf. We are grateful to our retail partners and consumers for their patience as we complete this process carefully and in close coordination with the Commission.*

## Retailer Advisory – ***ButACake Hibiscus Cherry Elixir 5mg***

CannPowerment is committed to maintaining the highest standards of product quality, safety, and consumer satisfaction.

As part of ongoing quality-control and regulatory review efforts, retailers are requested to inspect all ***ButACake Hibiscus Cherry Elixir 5mg*** product inventory prior to sale and remove from sale any cans exhibiting visible signs of structural deformation or compromise, including but not limited to:

- Bulging or expansion;
- Distorted tops or bottoms;
- Leaking;
- Rupture;

CannPowerment's laboratory testing to date has not identified bacterial contamination or microbial growth in tested samples, and the company continues to cooperate fully with ongoing regulatory review and product evaluation.

Retailers are asked to document and tally any units removed from sale due to observed package integrity concerns and provide that information to CannPowerment so that appropriate product credits or replacements may be arranged.

CannPowerment appreciates your cooperation and partnership in ensuring that only products meeting quality and packaging standards remain available for consumer purchase.
