Dear Representative Lord,

This letter informs you and the house speaker, Representative Brian Egolf, that I am currently in House District 22 and wish to remain in District 22.

The proposed maps I reviewed on the redistricting pages have changed drastically from the current map and are unjust. My residence in House District 22 is part of a community of interest in the East Mountains and has nothing in common with District 50.

The East Mountains is a unique district with unique concerns, and it should be represented by one person who understands our district's needs.

Thank you,
