Pt X, Line 2: The accounting standard on accounting for uncertainty in income

taxes addresses the determination of whether tax benefits claimed or expected

to be claimed on a tax return should be recorded in the financial statements.

Under that guidance, the Trust may recognize the tax benefit from an uncertain

tax position only if it is more likely than not that the tax position will be

sustained on examination by taxing authorities based on the technical merits

of the position. Examples of tax positions include the tax-exempt status of the

Organization and various positions related to the potential sources of unrelated

business income tax (UBIT). The tax benefits recognized in the financial statements

from such a position are measured based on the largest benefit that has a greater

than 50% likelihood of being realized upon ultimate settlement. There were no
