ACRYLIC BENDER

Fast heating and simple operation

Right angle / radian

NEOCAN

Rapid heating

Uniform heating

Integrated molding

Safety and energy saving

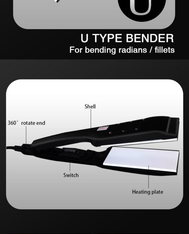

PRODUCT INTRODUCTION

Acrylic Bender

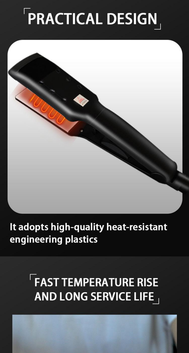

A TYPE BENDER

For right angle / bevel

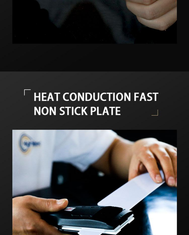

Power	39W	Voltage	110-240V
temperature	200℃ ± 5%	Size	100mm*25mm*2mm

U TYPE BENDER

For bending radians / fillets

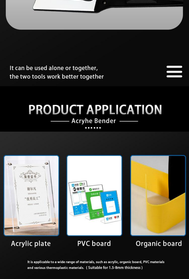

Power	60W	Voltage	110-240V
temperature	200℃ ± 5%	Size	100mm*50mm*2mm

PRODUCT FEATURES

Acrylic Bender

PRACTICAL DESIGN

It adopts high-quality heat-resistant engineering plastics

FAST TEMPERATURE RISE AND LONG SERVICE LIFE

HEAT CONDUCTION FAST NON STICK PLATE

FLEXIBLE USE

It can be used alone or together, the two tools work better together

PRODUCT APPLICATION

Acrylic Bender

Acrylic plate

PVC board

Organic board

It is applicable to a wide range of materials, such as acrylic, organic board, PVC materials and various thermoplastic materials. (Suitable for 1.0-8mm thickness)
