Role: Prime
Contracting: Time and Materials
Project Completed: On Going

Services:

- Site investigation
- Sample collection
- Sample Analysis
- Qualified and Certified personnel
- Work Plan Preparation
- Regulatory Interface
- Reporting
- Permitting

Discussion:

CES Group is currently contracted by the City of Riverside to conduct site investigations at multiple properties throughout the City of Riverside. The City of Riverside has identified multiple properties acquired by the City for planned improvement projects. CES Group has been contracted by the City to conduct investigations for **asbestos, lead based paint and mold** at properties within the right of way of future City projects. Facilities investigated under this contract include residential and commercial/industrial type properties.

Issues CES Group resolved to assist the City include rapid investigations to coordinate with difficult access issues at the acquired properties as well as rapid preparation of investigation reports and analysis to assist the City in maintaining its improvement schedule.

CES Group performed:

- Work Plan Preparation
- SCAQMD Permitting and interface
- Coordinating access to properties
- Sample collection and analysis
- Report preparation
