

# NOVACOM CONCEALMENT SYSTEMS

Novacom Concealment Systems (NCS) provides products and services for the wireless telecommunications industry. Our NovaCell, NovaCore and NovaPanel products are made of RF transparent materials and are built to last. Our products are beautiful and the Spanish tile or tree bark looks as good as the real stuff yet provides your site with the RF performance you require.

## RF TRANSPARENT CONCEALMENT

- Design and Manufacturing
- Photo Simulations
- In-house Engineering
- Permitting
- Installation services or support
- Site Maintenance

Our experienced team of fabricators, engineers, CAD designers, project managers and installers has what it takes to support your cell site concealment needs from start to finish.

## ONE STOP SHOP

With NCS you get the experience of an in-house Engineering Firm, coupled with the skills of a

General Contractor. We can take your project from concept to reality and do it all through one company. Since we are the engineers, everything fits together upon arrival on site and we can install or oversee the installation of your order making the process seamless and complete.

Additionally, we provide equipment platforms, antenna mounts and hardware, decking, ladders, handrails, walkways, or whatever materials you need to complete the project. And our product is **Proudly Made in the USA!**

## OUR TEAM

Novacom has been a successful service provider to the wireless telecom industry since 2001. The NCS division provides the products and services that allow you to rely on *ONE* Company for your cell site concealment projects. We have dedicated teams ready to provide all your need at very competitive prices.

Call us today to set up a meeting and learn more about our products and services or send us your requests and we'll come see you.
