

## TELECOM CONCEALMENT SERVICES

### SERVICES THAT MEET THE NEEDS OF OUR CLIENTS

Novacom<sup>TM</sup> is a full service engineering, and concealment (or stealthing) manufacturing, and installation company that specialize in innovative approaches to concealment material development, engineering, design and manufacturing for the wireless industry. Novacom has provided such services to the industry since 2006 and has designed, engineered, manufactured and installed concealment sites for most of the major wireless carriers from Florida to California. During this time, Novacom<sup>TM</sup> has established itself as a respected expert in the field of wireless antenna concealment and has been sought out in the industry for its expertise, experience and knowledge.

Novacom<sup>TM</sup>, established as a trade name of Civil - Environmental - Survey Group (CES Group), Inc. in 2006 has been in business since 2001.

Novacom<sup>TM</sup> provides two primary concealment products to the wireless industry as well as several secondary products:

#### **NovaCell<sup>TM</sup>** - (Poly Composite)

A hybrid polymer composite panel encapsulated with a polyurethane hard coat that is 2 inches thick and is manufactured in 10'x6' panels.

#### **NovaPanel<sup>TM</sup>** - (Poly Composite PVC Based Panel Structure)

A PVC based composite structure that is 1/2" to 3/4" inches thick and manufactured in 4'x8', up to 4'x18' panels.

Novacom<sup>TM</sup> materials have been independently tested with proven superior performance when compared to Fiberglass Reinforced Plastic (FRP) materials. Radio Frequency (RF) testing completed from 600MHz up to 84.625 GHz. NovaPanel<sup>TM</sup> is the most commonly used product replacing the antiquated FRP materials.

Novacom<sup>TM</sup> has manufacturing and installation crews serving the Western United States with years of construction experience covering a wide range of surface textures and shapes.

Health and Safety is our number one priority and our Safety programs have allowed us to qualify and perform installation work for most of the major carriers.

- TEXTURES TO MATCH
- SUPERIOR RF PERFORMANCE
- SUPERIOR DURABILITY
- CONCEALMENT INSTALLATION
- CONCEALMENT DESIGN
- FIRE RESISTANT

- EXCELLENT MICROWAVE PERFORMANCE
- INDEPENDENTLY PIM TESTED
- MADE IN USA
- NON-HAZARDOUS CONSTRUCTION
- LESS EXPENSIVE THAN FRP
