What problems have you had or do have with management, supervisors, team leaders or other co-workers/volunteers?

9. Disaster Relief and Recovery Aid work is very hard work. Circumstances change all the time and your role/job going over to Puerto Rico may change at any given notice to better fit the situation, your personality, your capabilities and what the needs are. If asked to do another job, cover for another person, or asked to take a break for your own health and the health and safety of others, how would you handle this when asked to do so.?
