

www.Bikebox.London

Thank you for your interest in our Bikebox. The following summarises the costs associated with each of the installation components.

We look forward to helping your garden look amazing!

Bikebox £4,900 + VAT

Our price listed on our website is for our Bikebox in mild steel with typical dimensions of approximately 3.7m x .7m x 1.4m. The costs include the design, fabrication and installation (within London M25) on the prepared site. Other finishes and sizes are priced on confirmation of agreed design.

Items Included in cost:

- Fabrication using minimum 2mm mild steel
- Installation to specification on prepared site
- Planters lined ready for planting
- Box store lined in Plywood
- Box store locks (5 lever, suitable to door design)

To proceed, we require 50% deposit to confirm your order and the remaining 50% prior to installation. Delivery dates will be confirmed once the order is placed. Typically it is a 5-week fabrication lead time.

Site Preparation £1,100 – £2,000

Site preparation of ground works is contracted and paid for directly by the client. Every condition is different. We will provide design requirement and consultation to the installation team. Please ensure that a direct water source is part of the ground works specifications. Elements to consider typically include:

- Removal of existing wall
- Skip/removals
- Plumbing for Water access
- Prep for Bikebox
- Making good once Bikebox is installed

Garden **£280 +**

The following is provided for general information:

Irrigation set up and planting out

Irrigation

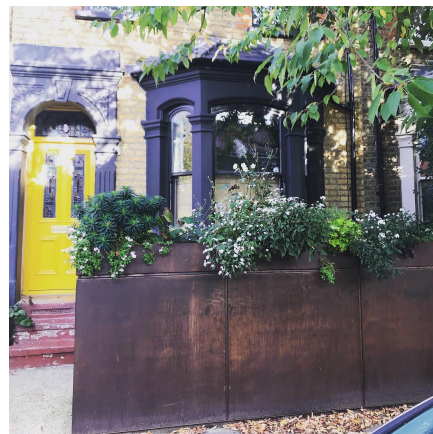

Your Bikebox will require regular watering and so will need to have an irrigation system set up. They are easy to install and use once you have a water source, which is part of the site preparation. Additionally, you may wish to have a water monitor (it automatically checks whether there is a need to water).

Soil/Compost

Recommended: a slow release fertiliser all purpose compost, 800-900 litres for a typical Bikebox.

Plants

Recommended: a combination of perennials and bulbs, to be in-filled with annuals. This is a matter of budget really, you can expect that each plant will average out at about £10-£15 each. We would suggest putting a budget against an initial plant out and then come back to it as the season progresses.

Other services we offer **£POA**

Bikebox set up

Irrigation, Soil installation and Planting out

- Setting up irrigation and prepping planter to accept plantings - getting the compost delivered and installed
- Selecting, collecting and planting

Design Consultation
