Policy Statement

Purpose:

The purpose of massage therapy provided by Beth Elliott Bodywork, LLC is to help with the management of daily stress, to reduce chronic muscular tension and to increase the client's own body awareness. I have training in traditional Swedish massage, deeper myofascial massage, aromatherapy and hot stones.

Session Expectations:

Massage is provided unconditionally to all without regard to gender, age, race, national origin, sexual orientation, religious or political affiliation.

All massage is non-sexual. If any such references are made at any time, the session may be terminated **immediately** by either therapist or client.

To maintain client safety, comfort and privacy, I will provide draping throughout the session. The only part of the client's body uncovered at any time will be the area I am currently working on.

Clients must not be under the influence of drugs or alcohol during the session.

Under N.C. law, both therapist and client have the right to terminate the session **at any time for any reason**.

Client Confidentiality & Records:

All client records will be maintained confidentially. There are few exceptions to this:

- if the client gives written consent for release
- by law or court order
- if I believe the client could pose danger to self or others.

Per N.C. law, client records are kept for at least four years after termination of services.
