

*A Teachers' Workshop Session on...*

***Re-crafting Science Assessment Items  
into Enrichment Learning Tasks***

Speaker:  
**Dr Tan Kok Siang**

**Thursday 16 Feb 2023  
1500 – 1630h**

Image [link](#) [link](#)

**Synopsis:**

This workshop aims to integrate enrichment (informal learning) and assessment item practices (formal learning). Participants will be guided to identify suitable assessment items (PSLE/GCE) that can be re-crafted as student-centric inquiry-based problem-solving (cognitive) tasks, innovative hands-on (psychomotor) tasks and/or socio-emotional (affective) learning tasks. The takebacks for participants will be pedagogical ideas that support INquiry, INnovation and INspiration, the 3 IN's of the new Science Curriculum Framework (MOE, 2019).
