Nascentia Health Named One of 2019's Best Companies to Work for in New York State

Syracuse, NY – Nascentia Health, a local leader in healthcare services focused on providing integrated care and in-home service delivery, has been named one of the 2019 Best Companies to Work for in New York by the New York State Society for Human Resource Management (NYS-SHRM).

Created in 2007, the Best Companies to Work for in New York State awards are part of a distinctive program designed to identify, recognize and honor the best places of employment in New York, whose practices benefit the state's businesses, economy and workforce. The annual awards are a partnership of NYS-SHRM, Best Companies Group and BridgeTower Media.

A total of 75 companies with operations in the state topped this year's list and were divided into three categories based on size: 26 small employers (5-99 employees); 23 medium employers (100-249 employees); and 26 large employers (250+ employees). To be eligible for participation, organizations had to meet specific registration requirements and partake in a two-part employee engagement and satisfaction survey, which determined company strengths in areas such as leadership and planning, role satisfaction, and work environment. Best Companies Group, an independent firm that manages Best Places to Work programs on state, regional and national levels around the world, conducted the survey, evaluated the results and determined the best places of employment in the Empire State.

"We're honored to be named one of the best places to work in New York State, particularly because our ranking is based on employee feedback," said President and Chief Executive Officer Kate Rolf. "Our employees are our most valuable resource and the key to our continued success. This award is further evidence of our long-term commitment to them, and to building an exceptional workplace by continually investing in them."

Nascentia will be honored at a public awards dinner to be held at the Albany Marriott on Wednesday, April 24, 2019. During the event, the system will learn where it ranks among its competitors in the large employers (500+ employees) category. In addition, a special publication profiling all 75 winning organizations and their unique employment perks will be produced for distribution to event attendees, higher education institutions, and thousands of human resources professionals and organizations across New York State.
