

MY RENAISSANCE FAIRE BACKGROUND

It now seems like another World, another Life.

A young Israeli man earned his Engineering degree at UT Austin, but chose the life of a vagabond Ren-Fest entrepreneur ~ We were friends and I went along for the ride.

I served as Manager over an array of Vendors and performing Troupes - Akin to herding packs of Coyotes.

Where the performers used blood or red greasepaint depending on their mood; the Fire-breathers, and Hairy Hippy Chicks filled in the rest.

A savagely exciting World ; and I was young and dumb ~ Forget about the Danger and think of the Fun!

Shroom and drug fueled insanity - No Names and No Dates....
