

TEXAS GULF JAM BAND Background

Over the years, I have had unique opportunities to be directly associated with big name musical artists and acts, managers, guitar manufacturers, and luthiers. I have lived a life of immediate resonance with that music and culture.

My privileges unexpectedly expanded from my association with a band that brings fun and power back to the world ~ Through their music!

I briefly met a young singer and guitarist, while running relief aid to Port Aransas in 2017. I was supporting the Coastal Bend Disaster Recovery Group, in my massive GMC pickup after Harvey steam-rolled through.

In 2021, I caught the best damn beach party/reggae show in, of all places, Port Aransas, TX. I play rhythm guitar and sing horribly, but I understand music structure, and I have the *ear* - I know it when I hear it. Surprise! The singer and guitarist had built his dream, by putting a band together from the rubble of Harvey!

All rights of use of music and original lyrics used in my screenplay are granted by the Licensor "Triptonite" ~ They're ["LIMITLESS"](#)
