About LandonLogic

LandonLogic Inc. delivers tailored consulting services at the intersection of management, technology, and execution. We specialize in application and web development, data migration, data warehousing, ETL development, systems integration, and IT program delivery.

Our team helps government and commercial clients modernize legacy systems, streamline operations, and unlock the value of their data. With deep expertise in agile delivery, data architecture, and business process optimization, we consistently deliver results on complex, high-stakes initiatives. Whether leading projects or serving as a trusted subcontractor, LandonLogic provides scalable, secure, and compliant solutions that drive innovation and measurable impact.

Differentiators

- Over 25 years of real-world experience in IT, finance, and real estate sectors
- Certified PMP® and Disciplined Agile (DASM) practitioner-led consulting
- Dual strength in management consulting and technology delivery
- Proven ability to support both prime-led contracts and internal modernization efforts
- Small business agility with enterprise-level professionalism
- Committed to delivering client-centered, scalable, and compliant solutions
- Strategic focus on subcontracting and teaming to support Prime vendors
