PRESIDENT'S MESSAGE

Are you a friend to a friend? This means you are not just there to get what you can get out of the friendship but you are someone that knows a friendship is a two way street of giving and taking. A friend can disagree with you and still be there for you. A friend will tell you what you need to hear versus what you want to hear. If this person is in your life and you still communicate with them afterwards then you are a friend to a friend. We need these friends in our lives . A true friend may not call you everyday but are there to listen, be a shoulder to lean on and are there to share in significant events. Be a friend to a friend.
