Telecommunications Capabilities

- Cellular Network Design and Performance Engineering
 - 3G UMTS / WCDMA, 4G/LTE, 5G
 - DAS (Distributed Antenna System)
 - Indoor Coverage
- Cellular Network Design Engineering
- Cellular Network Construction
- Cellular RAN and Core Capacity Engineering
- Telecom Engineering and Project Management
- Fiber and Copper Engineering and Installation
- Inside & Outside Plant Operations & Management
- Programs & Project Management:
 - Wireless & Wireline Construction
 - Billing System Replacement
 - Equipment LifeCycle Management
 - Acquisition
- Vendor Management:

Information Technology Capabilities

- CAT5 cabling installation and termination
- LAN design
- L2/L3 VLAN design
- Cisco/HPE (core, edge, and access) installation switch configuration
- Cisco router installation and configuration
- Cisco ASA firewall installation and configuration
- CheckPoint firewall installation and configuration
- Palo Alto firewall configuration
- Big IP F5 load balancer installation and configuration
- TippingPoint IPS/IDS installation and configuration
- SecureSync NTP appliance installation and configuration
- RedSeal (security assessment) appliance installation and configuration

- Nagios (network device monitoring and alerting) installation and configuration
- Network application courseware development and instruction
- ITIL Change Management - Enterprise Service Manager, Remedy, Jira
- Solaris Sun (UNIX) server installation and configuration (pre-2006)

Construction Capabilities

- Develop and Overseeing Construction budgets upwards of \$500,000 in multiple sectors, to include: DOD, Guam DOE Commercial, Residential Sector, Federal Government, Non-Profit Organizations, Healthcare Facilities, and Government of Guam
- Generating Statements of Works with accompanying budgets, personnel requirements, expediting materials, and developing timelines
- Managing costs to ensure contract work is completed under budget and on-time
- Management and Controlling of supply chains
- Managing experience overseeing large teams of professionals (25+)
- Experience managing assets valued over \$2 M
- Developing curriculum aligning with US Department of Labor and International Brotherhood of Workers National Apprenticeship standards
- Painting: Interior & Exterior
- Corrosion Control

Construction Certifications

- Licensed General Contractor (B-General Builder Designation)
- EM385-1-1 Certification
- OSHA 30 Hour Construction Training Course
- OSHA 40 Hour Construction Training Course
- OSHA 60 Hour Construction Training Course
- EPA Certification for Mitigation of Radon Gas
- Certified Trainer for Dorom Vehicle Simulations
