Jewelry with that extra touch!

ENAMELED JEWELRY AND CLASS PRICE LIST

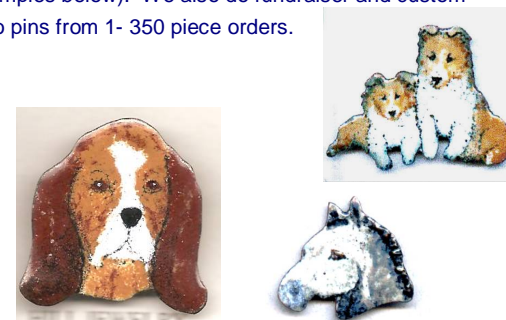

ABOUT US

Hill Jewelry is not your typical jewelry. Each piece is hand cut with a jeweler's saw and hand painted. No two pieces are exactly alike; they are ...your personal affordable designer originals created for you by Hill Jewelry. Care is taken to give each piece animated detail. We guarantee each piece will last a lifetime

Each piece is hand crafted by a process called enameling. Several steps using fine ground colored glass fused on metal by heating at high temperatures some times 10- 45 times. By using this process, we achieve the fine detail so they are also "wearable art" that seems to come alive.

PERSONAL and CUSTOM

You can select from one of our affordable, *Hill Designer Originals* or for that special gift, Hill Jewelry specializes in custom jewelry pieces by your picture (see some examples below). We also do fundraiser and custom logo pins from 1- 350 piece orders.
