

### Why Classes are offered at a discount to Organizations.

I have been in business since 1989. I understand the need to provide activities to groups in nursing homes and assisted living facilities. Since 2012, I have provided crafts to residents at the Livingston County Center for Nursing and Rehabilitation on a weekly basis. To help provide the needed funds, I have applied and been granted funds from the Genesee Valley Council on the Arts since 2019, adapting crafts to fit their abilities to help keep residents motivated and more independent while learning visual arts /crafts while maintaining hand eye coordination. I work with the activities director to ensure we are meeting all CMS requirements and guidelines. We encourage social distancing and hand hygiene. Proof of vaccination status is available on request.
