

DECK KITS

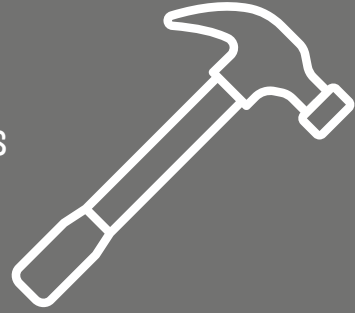

WHAT'S IN THEM?

1. DECKING

Choose from top of the line composite decking materials in a range of wood-like finishes.

2. FRAMING

Without proper framing your decking is rendered useless. Let us do the heavy lifting for you.

3. RAILING

Code mandates railing for any structures above 36". We have you covered here with many styles to fit anyone's aesthetic.

4. HANGERS

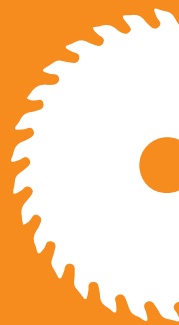

These are the steel reinforcement tools used for properly framing your deck.

5. FASTENERS

An essential part of any deck kit are the fasteners used to ensure your deck boards stay connected.

6. SAW BLADE

Using the right equipment is critical in getting the most professional results for your investment.

7. DRAWINGS

Your customized deck kits will include drawings to help conceptualize the project.

8. ADDITIONAL RESOURCES

Any additional resources needed to make sure your deck is properly assembled will be made available for those buying a kit.

YOUR OUTDOOR VISION, OUR EXPERTISE.
