

Hello All,

The next NKY Beekeepers Association meeting will be **June 5th at the Campbell County Education Center**. Here is the notice from our President, Susan Kahmann:

Attention Beekeeper!

The Northern Kentucky Beekeeper association will host Mr. Jim Coss, owner of The Honey and Bee Connection. He will give a presentation on NUCs and Splits at our next meeting. This presentation will last about 45 min. and will be held on Tuesday, June 5th from 7 – 9 pm at the Campbell Cty Ed Center on Racetrack Road in AJ Jolly Park. If you have an order with Mr. Coss, he will bring it to save on shipping. He will not have items for sale at this meeting, but can be reached at : Thehoneyandbeeconnection.com or at 606-207-7785 or 606-384-3108. We look forward to seeing you there!

Sincerely,

S. Kahmann

859-781-8977

NEXT is a message from Rita Bushelman:

Boone County is having a "farm tour" on June 30th and there will be a bee presentation at the Dinsmore House (about six miles below Burlington on Rt 18). Rita has volunteered to be there, and Earl may be able to bring an observation hive. Any other beekeeper help would be appreciated and a great opportunity to wear our fancy new bee shirts. You do not have to be a long time professional beekeeper. Rita's number is (859) 526-6641. Details on the farm tour can be found here. <http://boonecountyfarmtour.com/>

FINALLY I received this email from the Ohio State Beekeepers Association:

We are hosting the Ohio State Beekeepers Meeting for the first time in Oxford, Oh near the Ohio-Kentucky border on June 9th and thought we would give a neighborly shutout (Bees without Borders!) to KY Beekeepers who might wish to attend. Please send out and/or post the below information.

Thanks!

Alex

Dir., OSBA

OSBA Summer Meeting – June 8th and 9th; Oxford, OH 45056

Come join us for the OSBA summer meeting on Miami University's campus in Oxford, OH

and walk in the footsteps of L.L. Langstroth (the Father of modern beekeeping) on the

very campus the modern beehive was invented in the 1850s.

We have an exciting venue planned including: a tour of the Langstroth homestead, a walk through a unique public observation apiary, and a diverse agenda of beekeeping classes including numerous Master Beekeeping courses.

Directions: <http://www.miami.muohio.edu/about-miami/visiting-miami/directions-and-drive-times.html>

Physical address:

Miami University

Psychology Building

90 North Patterson Avenue

Oxford, OH 45056

Please see pre-registration and registration options:
