# Tennis Wellbow™

**Inside Tennis** magazine said, “Tennis Wellbow’s thoughtfully and specifically designed bands help strengthen surrounding muscles and prevent tendonitis, the cause of tennis elbow.”

**--Inside Tennis, July/August 2021**

## Tennis Wellbow™

Kit for preventing and curing tennis elbow

This Tennis Wellbow™ kit includes:

- Three specially designed tension bands to strengthen your elbow tendons
- Instruction manual with exercise suggestions from sports medicine specialists

Made in the USA

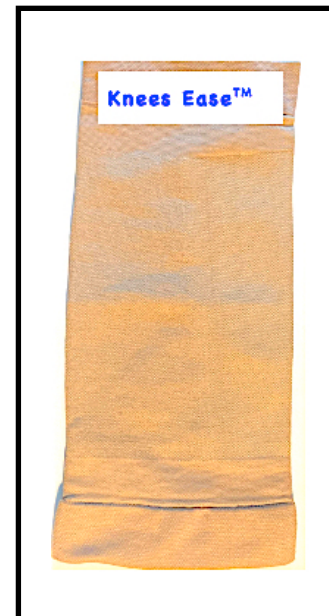

The Tennis Wellbow™ kit explains how you can prevent and cure tennis elbow with simple exercises using three Tennis Wellbow bands. It will strengthen your forearm muscles and prevent tendonitis which is the cause of tennis elbow. Avoid surgery and cortisone injections

Try the Tennis Wellbow™.

**Made in USA \$12.95**

# Knees Ease™

Tennis is particularly hard on the knees because of strenuous lateral movements. Most tennis players have suffered knee pain from time to time. The National Institutes of Health found that knee sleeves can affect functional improvements to knee problems. Tennis Knees Ease™ is designed for use while playing tennis. It is exceptionally light, yet strong, so that your movements are not impaired, while at the same time it is strong enough to support your knees. Tennis Knees Ease™ comes in two sizes: Large and Medium Color: beige.

**Made in the USA**

## Benefits of Tennis Knees Ease™

- Protects knee from injury
- Specially designed for tennis players
- Light weight fabric
- Strong, stretchable fibers

**\$20.00**

**\$30.00**

# No Sweat™ Wristbands

Super-thick (two-ply) extremely absorbent because of its high-cotton content (94%), latex 6%. Our wristbands are made with cotton grown in the USA and made in the USA. These wristbands are not made in sweatshops in Asia like many other sweat-bands. In blue or white.

**Made in USA Package of two - \$7.50**

**Good Vibe™** is different than other tennis dampeners. Most dampeners are small corporate logos not designed for vibration reduction. The University of Birmingham (England) found that most logo dampeners were just too small to reduce racket vibration. Good Vibe™ is larger than logo dampeners and significantly reduces racket vibration.

The wide V shape fits securely at the bottom of the racket out of harm's way. Top pros like Novak Djokovic and Alexander Zverev use vibration dampeners. Try **Good Vibe™** and you will see and feel the difference.

- Covers more surface area and is more effective than standard "logo" dampeners
- Dampens more strings than small dampeners
- Available in red, white, blue and black.
- **Made in the USA** **\$7.50**
