Made in USA

LEGACY[™] SERIES**MAXPEDITION[™]**

MXWDB4 Web Dominator Four Pack. Designed primarily to manage the floppy excess 1" webbing on backpack shoulder straps once they are tightened. Simply install the Web Dominator on end of strap, roll/fold it up, and engage the shock (bungee) cord. Also excellent on backpack sternum straps to position hydration drink tube. Made from durable, low IR signature material. Pack of four. Ion thread (stronger than ordinary industry standard nylon thread). #AS-100 high grade closed-cell foam padding material for superior shock protection. High tensile strength nylon webbing. #10 high strength zippers and zipper tracks. UTX-Duraflex nylon buckles for low sound closures. Color: Black. **Retail \$10.95**

TacTie Attachment Strap System is used to integrate accessory pockets onto packs, vests, MOLLE equipment and PALS surfaces effortlessly in an interlocking manner. Closed loop design provides an extremely secure connection. Once properly engaged, a TacTie strap will not open unless deliberately disengaged by the user. Detachment is quick and easy by hand. There is no need to use special tools. Once the pouch is detached from the pack, the TacTie straps remain secured on the pouch so they are not misplaced or lost. Works seamlessly with all current and past Maxpedition products, also works on your existing MOLLE pouches by other manufacturers. Completely reusable and interchangeable.

Not affected by heat or cold and will never corrode. Pack of four.

MAXPEDITION

Constructed of 1000-Denier (unless otherwise noted) water and abrasion resistant light-weight ballistic nylon fabric treated with Teflon fabric protector for grime resistance and easy maintenance. Uses high tensile strength composite nylon thread (stronger than ordinary industry standard nylon thread).

#AS-100 high grade closed-cell foam padding material for superior shock protection. High tensile strength nylon webbing. #10YKK high strength zippers and zipper tracks. UTX-Duraflex nylon buckles for low sound closures.

Falcon II Hydration Backpack.

Has all of the best features of a small/medium hunting pack or day pack, plenty of room for an overnigher, and is rock solid throughout (25L carry capacity). It has modular attachment webbing all over to attach your favorite Maxpedition pockets using TacTies. Padded, high-breathability shoulder straps with 1.25" webbing, ergonomic contours, and superb load carrying comfort. It features an external sleeve for a 100 oz. water reservoir; a secondary bladder may be inserted into one of two large compartments. The pack contains five large, independent zippered spaces and two hidden compartments with various other carry features for arranging items great and small.

AGR Grimloc Locking D-Ring.

Pack of 4. Can be used on any 1" wide piece of webbing and replaces the metal carabiner for attachment of lanyards, weapons, and accessories. Fabricated from high strength lightweight plastic, incorporates GhillieTex IR-signature reduction technology, and resists solar heating. Its latch is designed with a detent to maintain an open position if needed and, while strong enough to carry equipment, it will break away with a soldier's weight, eliminating snagging hazards which can cause serious injuries. Release button is textured for ease of use with gloved hands and works as a pump for purging trapped sand or water through integral drain holes. Since the Grimloc is made from plastic, it will not serve as a platform for ricochets or become a secondary projectile. Used extensively by the United States Army and Marine Corps. Package of four. Ion thread (stronger than ordinary industry standard nylon thread). #AS-100 high grade closed-cell foam padding material for superior shock protection. High tensile strength nylon webbing.

#10 high strength zippers and zipper tracks.

UTX-Duraflex nylon buckles for low sound closures.
